differently...

Seeking
expressive and
intriguing forms

Creating simply beautiful floors that bring your vision to life

Traveling the world

Developing unique floor designs

Karndean Designflooring

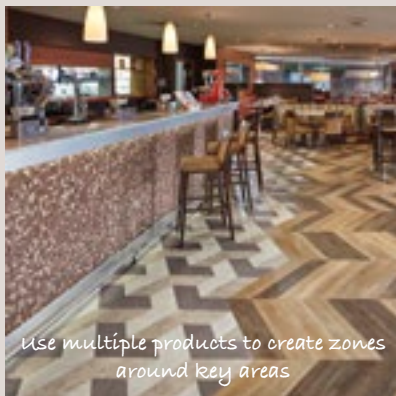

Karndean Designflooring

Karndean Designflooring

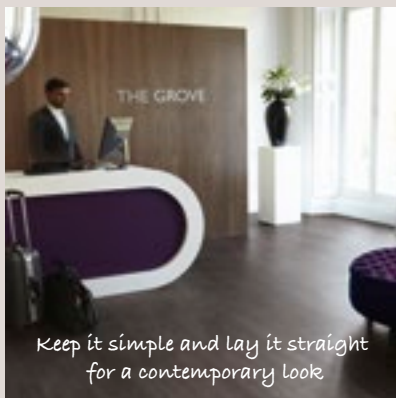

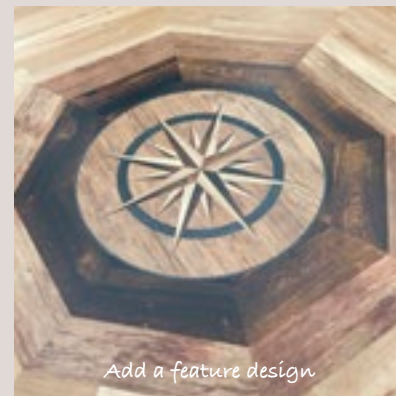

nich fl

Create Your Style

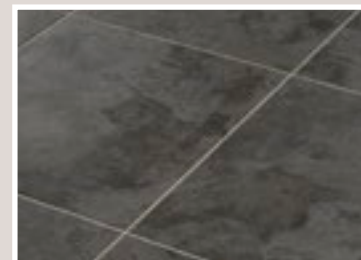

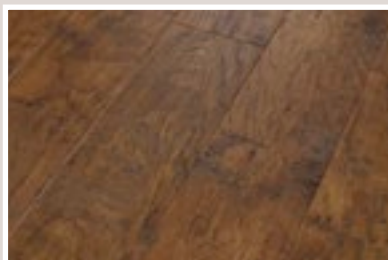

We pride ourselves on being a cut above other kinds of vinyl flooring, with individual planks and tiles that can be laid in a variety of patterns to suit your project.

Texture

Texture is as important as appearance when it comes to Designflooring. Set foot on any of our floors and you can feel the quality of our designs. Order a sample to feel the difference for yourself.

Global Environmental Statement

Karndean Designflooring and the environment

Sustainable raw materials

The key raw material in our product, PVC, is derived from a truly sustainable resource: salt. In addition to some renewable bio-based raw material, the minerals used to reinforce our products are naturally plentiful in the earth's crust and can be considered sustainable.

Raw materials are purchased in bulk and sourced as locally to our factories as possible. They are also sourced from ISO 14001/ISO 9001 certified raw material suppliers where possible.

Safe products

Our products are based on vinyl (PVC); the same tried and tested material used in vital medical equipment, from blood bags to dialysis tubing, heart and lung bypass tubing, surgical gloves to pill packets. The same material we put our trust in for pipes, wire and cable protection and window frames. Indeed, it is the most widely used polymer in building and construction.

In the USA, our products comply with California's 'Proposition 65' and are free from chemicals known to cause cancer, birth defects or other reproductive harm. They require no warning labels when offered for sale throughout the USA.

Air quality

All Karndean products have been tested for contribution to indoor air quality and independent testing proves that our products are very low emitting in terms of VOCs (volatile organic compounds), meeting the strictest standards for air quality.

Information sur le niveau d'émission de substances volatiles dans l'air intérieur, présentant un risque de toxicité par inhalation, sur une échelle de classe allant de A+ (très faibles émissions) à C (fortes émissions)

Proven low environmental impact

Many of our products, including each of our gluedown and loose lay ranges, have an Environmental Product Declaration (EPD). An EPD is an independently verified and registered objective report based on a life cycle assessment (LCA). Its purpose is to communicate transparent and comparable information about the life cycle environmental impact of products, including: global warming potential, ozone depletion potential, and fossil fuel depletion potential.

Leadership in Energy & Environmental Design (LEED) is the most widely used building environmental certification program used in the USA. Our products help achieve points by virtue of specific EPDs, contribution to indoor air quality, recycled/reusable content and sustainable materials.

LEED System	Applicable Category and LEED Credit Name
NC (New Construction)	EQ4.3 Low Emitting Products - Flooring Systems
EB (Existing Buildings)	MR3. Sustainable Purchasing - Facility Alterations
H (Home)	MR2. Environmentally Preferable Products

Karndean's recent achievements

- Several of our products have been successfully certified to NSF/ANSI 332. This is the foremost US standard by which to evaluate and certify the sustainability of resilient floor coverings across the entire product life cycle, including both environmental and social aspects of the production and use of LVT.
- All products supplied into the USA are phthalate free.
- Our products are listed on the 'mindful MATERIALS' database, which allows architects and designers access to transparent environmental information about our products.

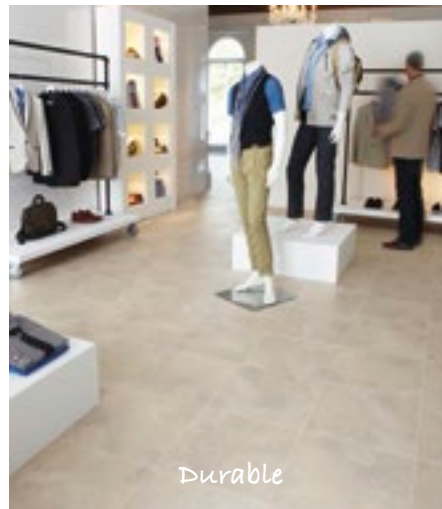

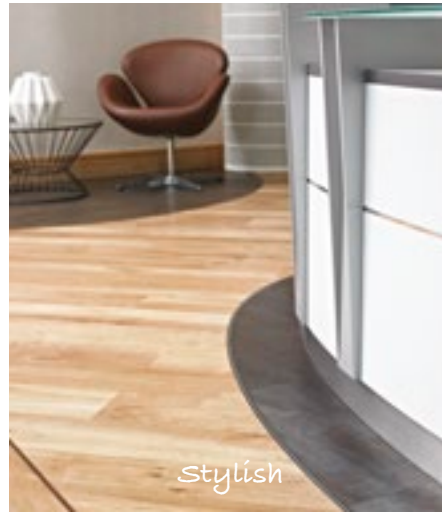

Environmental organizations/accreditations

We are members of:

- United States Green Building Council (USGBC)
- Green Building Council of Australia (GBCA)
- New Zealand Green Building Council (NZGBC)
- Flooring Manufacturers Sustainability Alliance

We take inspiration from natural wood and stone, making sure the best colors, textures and tones are replicated to the highest standard in our products. Our diverse ranges offer the perfect look and feel for any space, and offer the following performance benefits.

Commercial Warranty

Karndean International LLC Warranty. Subject to the conditions and exclusions set out below Karndean International Limited ("Karndean") Warranties that the product will not wear out and will be free from all manufacturing defects from the date of purchase for the Warranty period as set out below. (Warranty) Wear out is defined as the removal of the wear layer and design pattern.

Product	Commercial Warranty	Residential Warranty*
Art Select	20 yrs	Lifetime
Da Vinci	20 yrs	Lifetime
Van Gogh	15 yrs	Lifetime
Opus	15 yrs	Lifetime
Knight Tile	10 yrs	Lifetime
Karndean LooseLay	15 yrs	Lifetime
Korlok Select	15 yrs	Lifetime
Korlok Reserve	15 yrs	Lifetime
Van Gogh (rigid core)	15 yrs	Lifetime

The warranty is conditional on the following:

1. The product has been suitably specified, professionally installed and been subject to normal wear and tear.
2. The product has been installed by a skilled tradesman, adhering to industry installation standards, guidance from Karndean and an approved Karndean adhesive.
3. That the product has been cleaned and maintained using the cleaning and maintenance instructions provided by Karndean and that barrier matting or other such method has been provided at all external entrances to prevent the ingress of outside dirt onto the floor.
4. Protection has been provided to avoid heavy point loading to the floor.

This warranty does not cover the following:

1. Damage caused by external factors including but not limited to sunlight, water (including water leakages and subfloor moisture), stains, spills, heat or hydrostatic pressure.
2. Willful or accidental damage.
3. Modifications, repairs or alterations unless carried out by a skilled tradesman and notified to Karndean.
4. Poor installation of subfloor materials, or the use of incorrect subfloor materials.

Any claim made under this warranty should be made in writing or by telephone to:

Karndean Designflooring

Technical Department
1100 Pontiac Court
Bushy Run Corporate Park
Export, Pennsylvania, 15632
Telephone: 888-266-4343

If it is found to be necessary to replace a product which is no longer available, Karndean reserves the right to replace the floor with a product of equal value and specification to that which was originally installed.

Save as detailed above and to the fullest extent permitted by law, Karndean shall not accept or be liable under this warranty for any direct, indirect, special or consequential loss, expense, cost, claim or damage (including liquidated damages). This warranty does not affect your statutory rights.

* The Residential Warranty is valid when Karndean products are installed by a professional fitter to the BS 8203 industry code of practice in housebuild or residential projects. Please contact Karndean's Technical Department for further information on (888) 266-4343.

Sectors

Retail

Whether it's a small town boutique or a suburban superstore, great designs, flexible layout options and durability enable you to create and maintain an ambiance in which customers will spend. Karndean Designflooring not only outperforms many other flooring types on each of these aspects, but is easy to install and maintain.

- Unique design capabilities
- Durable flooring for high foot traffic
- Meets health and safety regulations
- Ability to create zonal areas to define your space

Make any retail space stand out by adding a personalized logo design to your floor, providing a unique look and enhancing your brand.

Dunkin' Donuts™

Location: Pittsburgh, Pennsylvania

Product: Art Select Midnight Oak **HC06** and Da Vinci Santi Limestone **LST05**

Dunkin' Donuts™ serves more than 3 million customers each day. In the fall of 2010, Heartland Restaurant Group – a Dunkin' Brands, Inc. Franchisee – opened a new location near the University of Pittsburgh.

Realizing that the typical Dunkin' Donuts™ prototype would not have the visual appeal necessary to stand out and attract traffic in a congested area with neighboring restaurants and coffee houses, Joe Uhler, Heartland's Real Estate Manager, decided to think outside the box. To make the shop stand out, Uhler began searching for construction materials that would support a more trendy, cool and collegiate look.

"I liked the fact that Karndean provided me with a variety of product options. I sent over a picture of our space, and Karndean matched up the flooring selections to our Dunkin' Donuts™ colors, which are central to our branding. They also worked the Dunkin' Donuts™ logo right into the flooring – something that is really attractive and different. The products were easy to install, which saved us time and money. Most importantly, I'm pleased with the performance of these floors, and am comfortable having a lot of heavy foot traffic on them every day."

Joe Uhler, Real Estate Manager, Heartland

Pet Valu

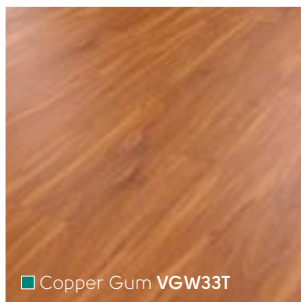

Location: Lemoyne, Pennsylvania

Product: Van Gogh Copper Gum **VGW33T**

Van Gogh

GLUEDOWN

■ Copper Gum **VGW33T**

Pet Valu, Inc. is a specialty retailer of pet food and pet-related supplies. With 350 franchised stores located throughout Ontario, Manitoba, Alberta, Maryland, Virginia, Pennsylvania and New Jersey, the company offers national and premium brands of pet foods, private label pet foods and pet supplies.

“We looked at quite a bit of flooring, and researched a number of flooring manufacturers. Friends in the flooring business recommended Karndean because a large, well-known retailer in our area had successfully used their flooring systems. I met with Karndean at the GlobalShop Show in Las Vegas, reviewed the product lines, and was very excited about what I saw.”

Joe Dent, US General Manager, Pet Valu

Boise State University Bronco Shop

Location: Boise, Idaho

Product: Korlok Select Washed Velvet Ash **RKP8102** and Washed Grey Ash **RKP8104**

Boise State University is a metropolitan doctoral research institution and home to more than 24,000 students. The Bronco Shop, the university bookstore and retail store is visited by students, families, alumni, friends and fans of the university and is the hub of Boise State's student union. What was once a commuter school has transformed into a rapidly growing institution, growth that prompted the university to rebrand. As a result, The Bronco Shop required a retrofit to match the school's new brand identity.

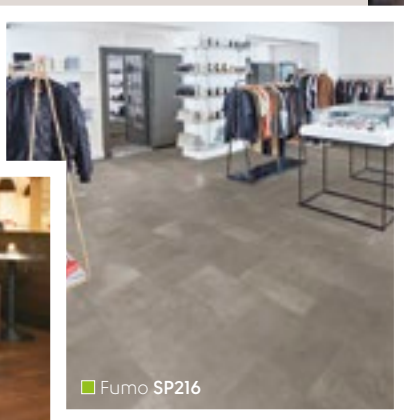

With two separate entrances, one from inside the student union and the other from the street, the priority of the remodel was to make the bookstore and the retail area, formerly separate spaces, feel like one cohesive space. "We wanted the aesthetic of the space to be elevated, but remain 'no frills,'" Boise State Senior Designer, Architectural & Engineering Services Kylene Collette said. Before the remodel, the flooring in the space was a combination of concrete and carpet. "There was no sense of connectivity to the space. We wanted to use different finishes to define clear walkways and join the two spaces together."

Kylene Collette, Boise State Senior Designer, Architectural & Engineering Services

Hospitality & Leisure

In a sector where the look, resilience and ease of maintenance is vital, Karndean Designflooring is a well-established and proven choice for the demands of hotels, bars, restaurants, tourist attractions and leisure facilities.

- Easy to maintain
- Hygienic
- Blend multiple products to create wayfinding or to separate front and back of house areas
- In environments where noise is a concern, consider Karndean LooseLay (reduces noise transfer by 16 dB, Δ IIC) or rigid core (reduces noise transfer by 21–22 dB, Δ IIC)
- Durable

■ Dusk Oak HC03

Aqua Restaurant

Location: Bristol, United Kingdom

Product: Art Select Washburn **LM07**, Fiore **LM16**, Corris **LM22**, Da Vinci Spirito Limestone **LST04** and Knight Tile Pale Limed Oak **KP94**, Mid Worn Oak **KP103**

Aqua Restaurant Group appointed Simple Simon Design and Bath Contract Flooring Ltd to undertake its latest retrofit project in the heart of Bristol's bustling Harbourside. With the floor design being an integral part of the concept, it's no surprise it's being talked about as much as Aqua's modern Anglo-Italian cuisine.

Incorporating new Kaleidoscope shapes (Apex and Pennon) and custom Karndean cuts, Simple Simon Design split the restaurant into four key areas, each with its own individual design. To meet the technical specification required, Art Select and Da Vinci were specified in the main bar and restaurant with their R10 slip ratings and 30 mil PU coated wear layers.

With various wood and stone designs from Karndean's established Art Select, Da Vinci and Knight Tile ranges featured, the restaurant includes the clean, pale stone of Art Select Fiore to the striking dusty pale brown tones of Knight Tile Mid Worn Oak, to name but a few.

"Although we had to accommodate high traffic when specifying the right floor, we ultimately wanted the decision to be design led."

Simon Jones, Designer, Simple Simon Design

Harbour Town Lighthouse

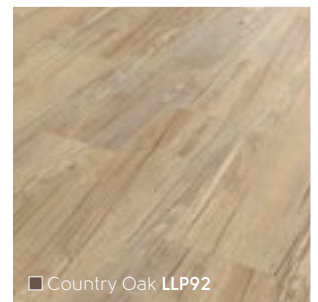

Location: Hilton Head Island, South Carolina

Product: Karndean LooseLay Country Oak LLP92

Karndean
LooseLay

LOOSE LAY

Country Oak LLP92

Working with Ron Timblin and Abbey Floor Fashions to find the best product, Tom Crews, the president of Tom Crews Architects, said Karndean's luxury vinyl tile was ultimately chosen due to its price, easy maintenance and beautiful aesthetics.

Having used Karndean's products in previous projects, he knew firsthand that it would be equal to the task. In particular, the quick and easy installation aspects of Karndean LooseLay, along with the ability to easily replace damaged planks, were instrumental in the decision to install a floating floor rather than a glued-down product.

Hilton DoubleTree

Location: Manchester, United Kingdom

Product: Art Select Hickory Nutmeg **EW03**

Peter Rose, an experienced Hospitality Property Manager from the Hilton DoubleTree in Manchester, recently revamped the hotel with an impressive new reception, restaurant and bar area. The result of his hard work is a stylish leisure area to welcome their guests.

When asked why he went with Karndean, Peter explained, "The original wooden floor scratched easily, was hard to maintain and looked tired after coping with heavy traffic 24 hours a day. As expected, the new Karndean flooring has proven to be an excellent choice in every respect. It has provided us with a beautiful wood look floor, that's harder wearing than the original wooden planks and fits in with our new look perfectly."

Besides being impressed with the look and durability of the product, Peter also mentioned that the team has been very impressed with how easy it is to clean and maintain. "Overall, the new interior revamp of the hotel has been a great improvement to our business," Peter continued. "I would certainly recommend Karndean Designflooring to others in the hospitality industry."

Peter Rose, Hospitality Property Manager, Hilton DoubleTree Manchester

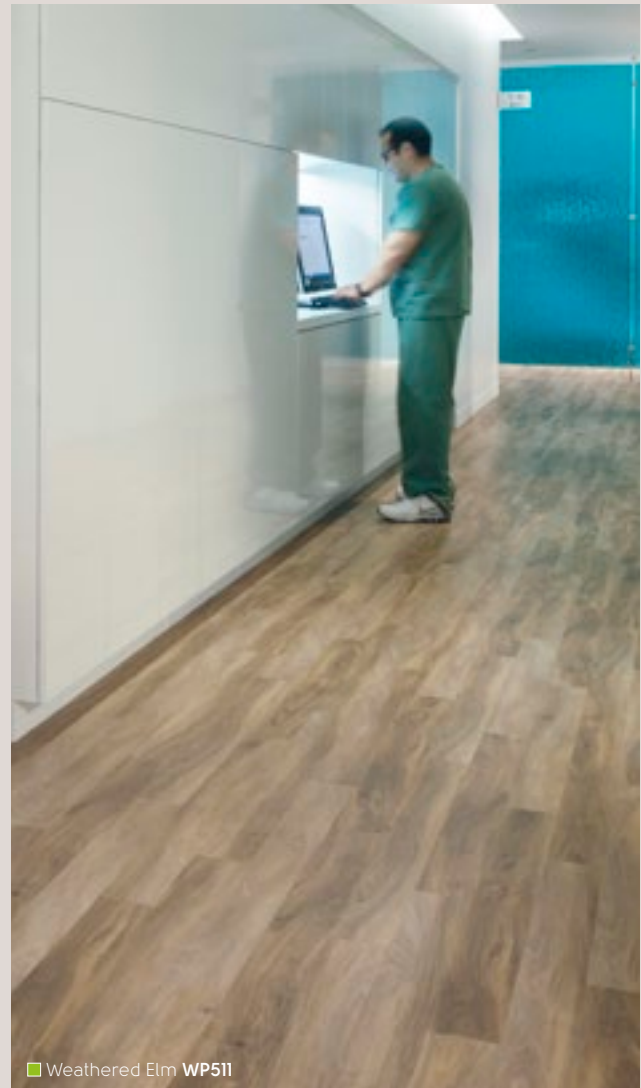

Healthcare

We understand that within the healthcare sector it is important to create the right atmosphere, whether it is a large waiting area or a small therapy room.

Our commitment is to create designs that can enhance any area and offer all the practicality that a busy healthcare space would need.

- Hygienic
- Easy to maintain
- Ability to create zoning and wayfinding through Designflooring
- Durable
- Quiet underfoot floors create a calming healing environment
- Can withstand static loads up to 2,000 psi*

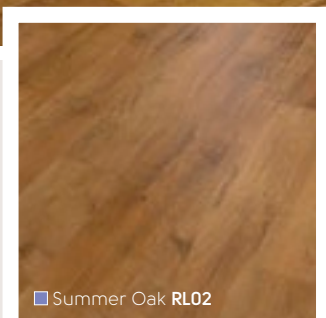

Weathered Elm WP511

*Static load varies by product range. Consult our technical data sheets for more information

mecwacare

Location: Malvern, Australia

Product: Art Select Spring Oak **RL01**, Summer Oak **RL02** and Winter Oak **RL04**

■ Summer Oak **RL02**

Not-for-profit organization *mecwacare* has provided care to the community for over 50 years and has recently opened another residential aged care facility in Malvern. When designing this state-of-the-art facility, a major consideration was providing an environment that was not only safe and homey but also exuded a level of class.

For *mecwacare*, hygiene, safety and low maintenance were important factors when selecting their floor covering. Karndean Designflooring Art Select is easy to clean, durable and comes with a 20-year wear warranty, making *mecwacare*'s decision to use Karndean simple.

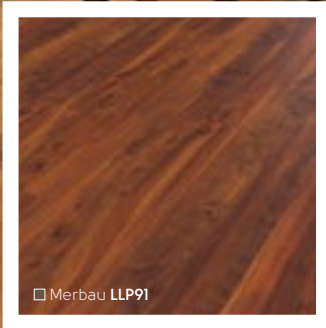

Evansville Manor

Location: Evansville, Wisconsin

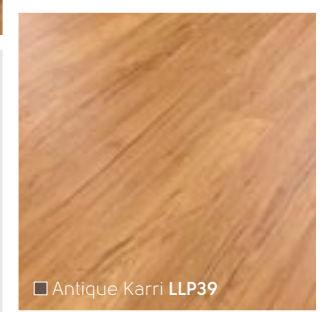

Product: Karndean LooseLay Antique Karri **LLP39** and Merbau **LLP91**

Karndean
LooseLay

Merbau LLP91

Antique Karri LLP39

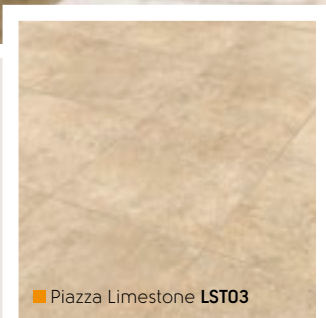

"I had used Karndean before and had a good experience in terms of cost and ease of maintenance. We knew wheelchairs and medical tables could be pushed around on Karndean LooseLay easily and it met my requirements for being durable, attractive and quick to install."

Krisi Reuter, Designer, Angus Young Associates

Chattanooga Room at the Inn

Location: Chattanooga, Tennessee

Product: Da Vinci Piazza Limestone **LST03**

■ Piazza Limestone **LST03**

The Chattanooga Room at the Inn (CRIT) is a non-profit residential program for homeless women and children in Chattanooga, TN.

The shelter serves up to 13 families at a time, which results in high levels of daily foot traffic for the floors in common areas such as the hallway, kitchen and dining room. LST03 Piazza Limestone from Karndean's Da Vinci range was the perfect match with its heavy duty 30 mil wear layer.

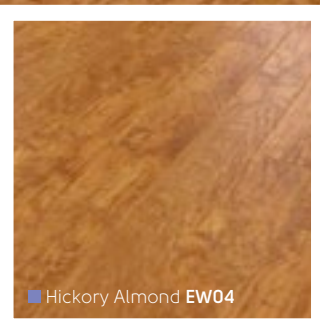

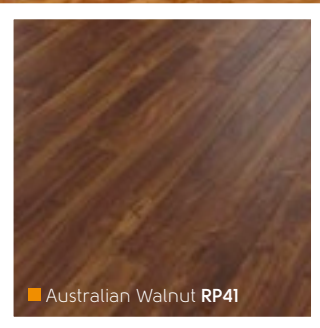

"It was chosen to complement the colors and design of the renovation, it really looks like limestone tiles! It is great for not showing dirt but light enough that it really brightened our interior."

Erin Creal, Executive Director, CRIT

Adelphoi Village

Location: Benet House, Latrobe, Pennsylvania

Product: Art Select Hickory Almond **EW04** and Da Vinci Australian Walnut **RP41**

“The light, golden tones and beautiful wood grain of EW04 Hickory Almond has enhanced the aesthetics of the unit, while providing for easy cleanup when spills inevitably happen.”

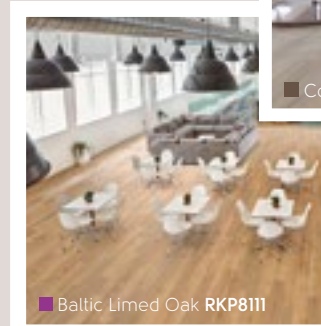

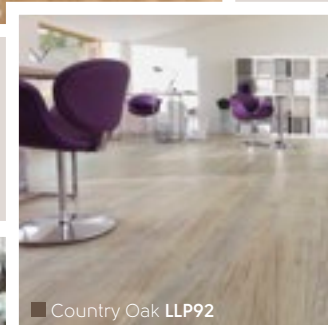

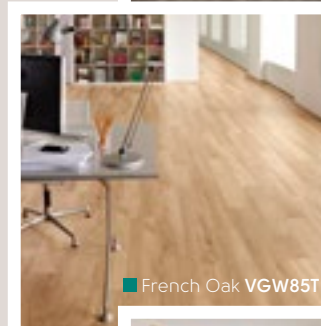

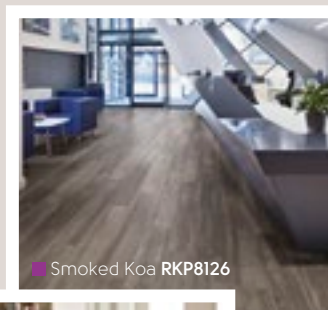

Karyn Pratt, Director of Development, Adelphoi Village

Corporate Office

Well-designed offices can positively affect workers' productivity and morale. Choosing Karndean Designflooring for your client's board room, reception area or open plan office helps create a stylish and inspiring working environment.

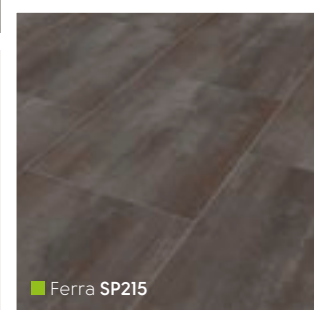

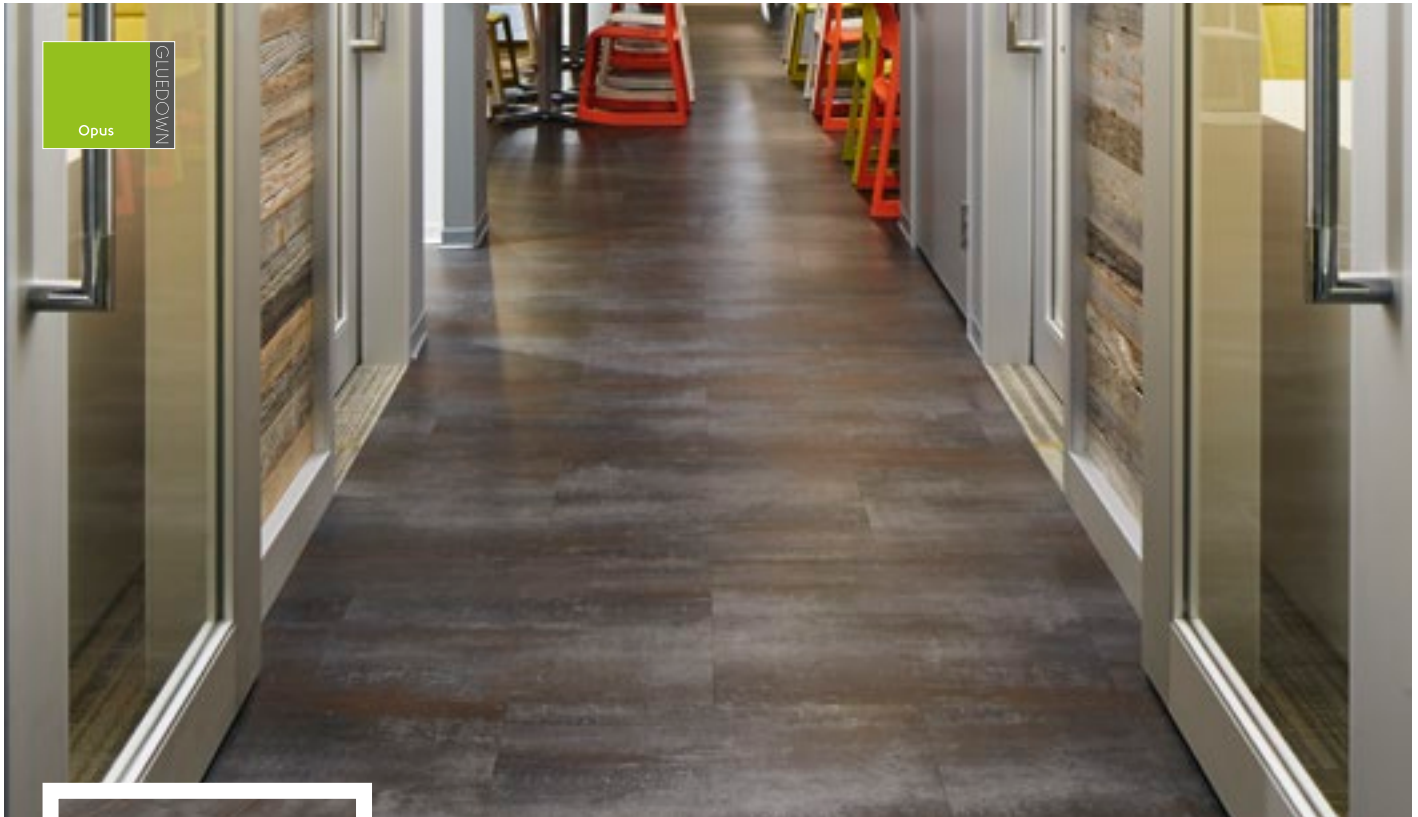

- Meets health and safety regulations
- Complements corporate identity
- Comfortable ambiance
- Welcoming first impression

Chicago Venture Partners

Location: Chicago, Illinois

Product: Opus Ferra **SP215**

Ferra **SP215**

To complete the reception, café, and open meeting spaces in their office renovation project, Chicago Venture Partners (CVP) needed a floor that offered a unique look and was easy to maintain. Having worked with Karndean Designflooring on previous projects, Steph Smothers, a Senior Designer at Eastlake Studio, knew that a tile from our durable, contemporary Opus collection would provide just what CVP needed.

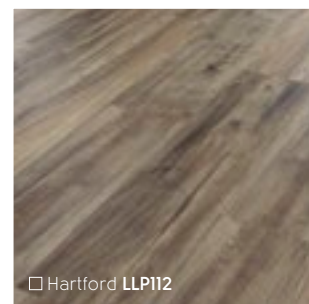

“Eastlake has frequently used Karndean in past projects,” she said. “We like the variety of options and our local representative is extremely helpful.”

Steph Smothers, Senior Designer, Eastlake Studio

Heise Architecture

Location: Brisbane, Australia

Product: Karndean LooseLay Hartford LLP112

□ Hartford LLP112

When planning their new studio office, architect and director at Heise Architecture, Rachel Heise, looked at interior design with a pragmatic perspective. Working with a new space and drawing on previous experience across various commercial sectors, Heise Architecture has created an inspired office environment that blends work and home life.

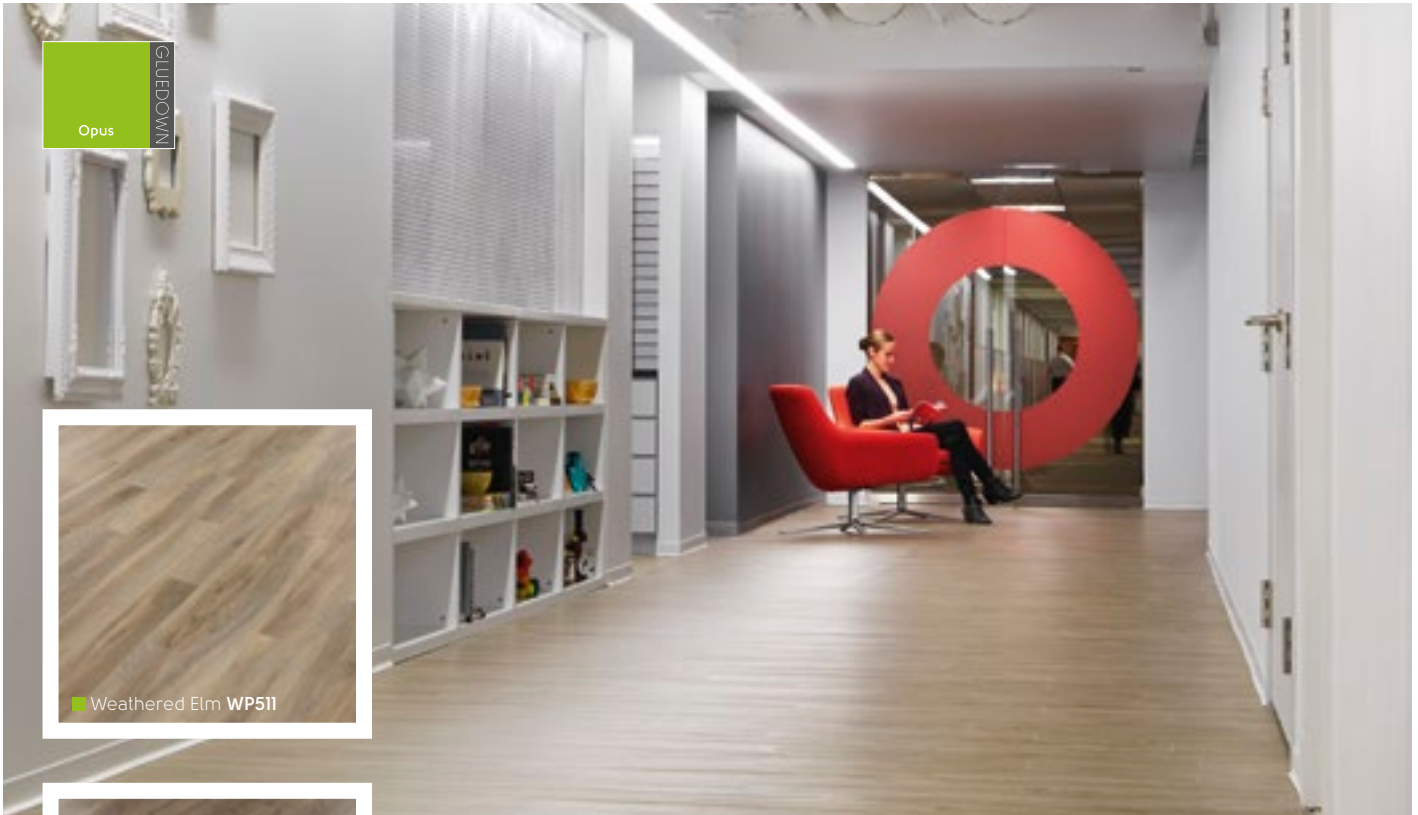

“Firstly, we decided on using resilient flooring and also mounted ducted skirting above desk height. Secondly, we share an office with a retail space and to make good conditions on our lease, we set out to design the fitout for easy disassembly when we left. Karndean LooseLay planks were perfect for this type of situation.”

Rachel Heise, Architect and Director, Heise Architecture

Equator

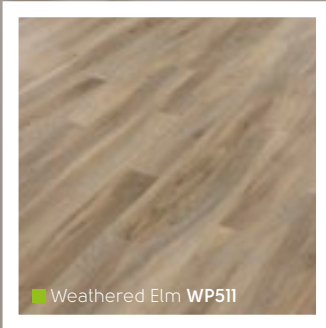

Location: Chicago, Illinois

Product: Opus Ignea **WP313** and Weathered Elm **WP511**

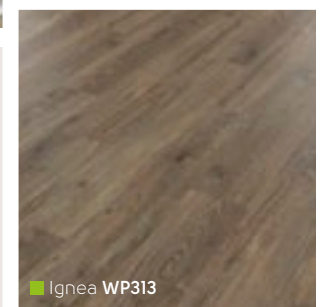

Opus

GLUEDOWN

Weathered Elm WP511

Ignea WP313

As a rapidly expanding international packaging design and branding firm, Chicago-based Equator sought a larger workspace to accommodate its 100+ employees. Once a new space was selected, designers at Eastlake Studios were tasked with creating an environment that would inspire employees, welcome guests for tours, and meet Equator's functional needs, which included integrating a photo studio and prep kitchen into the layout.

"Durability and maintenance were important since it was being installed in the highest traffic areas of the space," said lead designer Kevin Kamien.

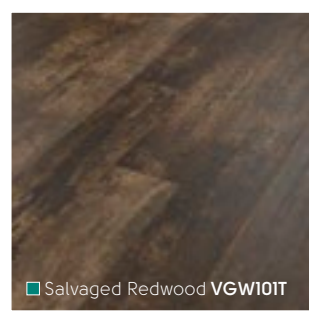

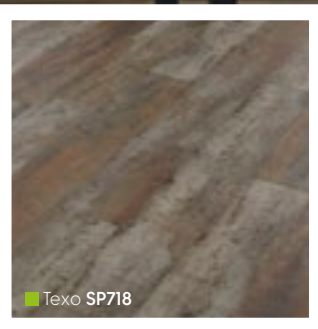

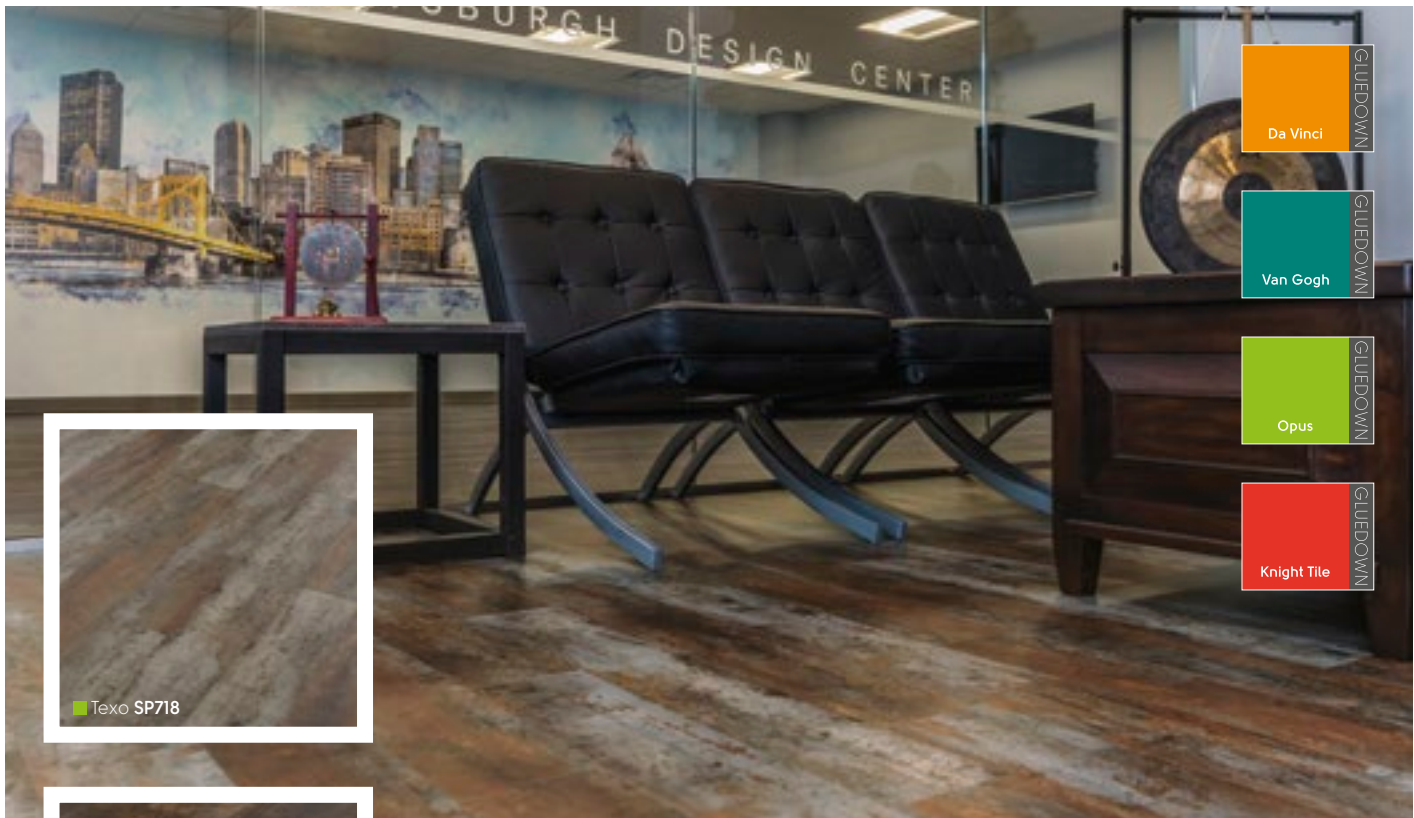

"Having a floor that could withstand the daily grind was essential."

Kevin Kamien, Lead Designer, Eastlake Studio

Stephen Gould

Location: Wexford, Pennsylvania

Product: Da Vinci Limed Cotton Oak **RP99**, Van Gogh Ebony **VGW89T**, Reclaimed Redwood **VGW99T** and Salvaged Redwood **VGW10IT**, Opus Texo **SP718** and Knight Tile White Painted Pine **KPI05**

After using Karndean Designflooring in their previous office space, product and packaging solutions provider Stephen Gould turned to Karndean once again when they expanded and remodeled their Pittsburgh-area flagship Design Center and corporate office.

"I wanted products that provided a warm, home-style look and feel. We have barn doors and rustic furniture in the client lounge and managers' offices, but the design center is a very industrial atmosphere with machinery and material constantly moving in and out. The floors we chose have proven to hold up what our work load has thrown at them."

Aaron Salko, Regional Sales Manager, Stephen Gould

EisnerAmper

Location: San Francisco, California

Product: Korlok Reserve Limed Coastal Oak **RCP6534**, Korlok Reserve Limed Charcoal Oak **RCP6538** and Opus Forma **SP214**

EisnerAmper is among the country's largest full-service advisory and accounting firms and when its San Francisco office was due for an updated look, the company turned to FCA. "The client was looking for a more refined aesthetic," said Lead Interior Designer Fay Leff. Designers also wanted employees to feel at home, as they put in long hours at the office, especially during tax season. "We wanted to make it a more curated and eclectic space with a lot of emphasis on the shared spaces," Leff said.

Leff and team chose three products from two Karndean Designflooring product ranges to complement the high-end look and feel of the remodeled space. Forma, from the Opus gluedown product range, was used in the main employee entrance to help hide dirt and other debris brought indoors from outside; and two colors from the Korlok Reserve rigid core range were carried through the reception area, into the main café/lounge, and through the hallway that connects individual offices and work spaces. Both product ranges have a durable 20mil wear layer suitable for commercial applications. "We had worked with Karndean on other high-end projects and because we needed a durable product for high traffic areas, we looked to Karndean for this project as well."

Fay Leff, Lead Interior Designer, FCA

Education

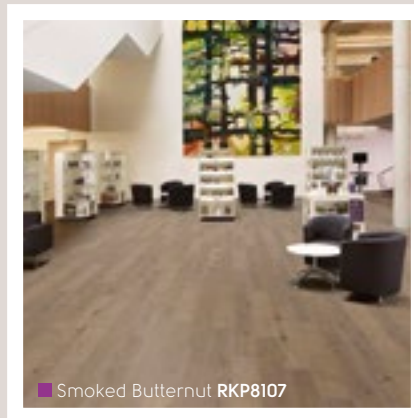

Karndean Designflooring's durable and low maintenance flooring helps create an environment in which students can learn and flourish.

- Inspired learning environment
- Durable
- Easy to maintain
- Tactile, visual, inspirational environments
- Resistance to scratches, scuffing and stains
- Ideal for meeting the demands of the bustling school grounds day in and day out

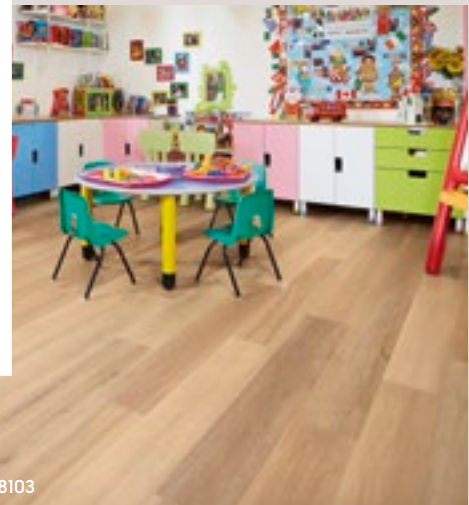

Whether you are redesigning for K-12 or higher education setting, Karndean Designflooring has the products to create a safe and inspired learning environment.

Smoked Butternut RKP8107

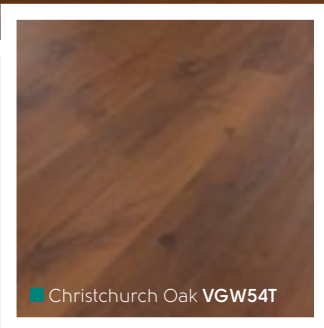

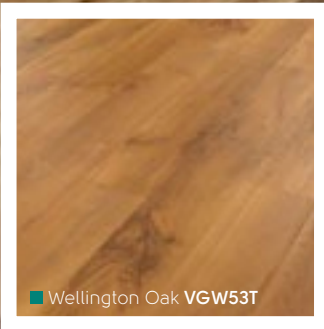

Warm Ash RKP8103

Florida International University

Location: Miami, Florida

Product: Van Gogh Wellington Oak **VGW53T** and Christchurch Oak **VGW54T**

Parkview Hall is a new, six story residence facility on the campus of Florida International University in Miami. When it was time to select flooring for his new residence hall, John Tallon knew from his experience with other residence halls on campus that the flooring product selected had to be sustainable, making maintenance costs a key priority.

"We tested four different products in a 60-square foot area outside the elevators to see what held up the best. We ended up going with Karndean for a few reasons - the thicker wear layer made Karndean hold up extremely well, the design and colors were very attractive, and for a glue down product it was still easy to replace a plank."

John Tallon, Assistant Director of Housing Facilities, FIU

University of North Texas

Location: Denton, Texas

Product: Karndean LooseLay Longboard Raven Oak **LLP302**, Pearl Oak **LLP306**, French Grey Oak **LLP308** and Karndean LooseLay Colorado **LLT201**

LooseLay

Karndean
LooseLay
Longboard

The University of North Texas is a major public research institution deeply committed to advancing educational excellence and preparing students to become thoughtful, engaged citizens of the world. In any academic institution, it is important to foster an environment where students will learn and flourish. As the University of North Texas began renovation on Sage Hall, transforming it from an office building into the campus' new Academic Success Center, Manager of Campus Planning, Facilities Planning, Design and Construction Thanh Kim Nguyen wanted to create an aesthetic that would both inspire students and please administrative officials.

The first phase of the renovation required flooring for communal work/study areas, classrooms and tutoring spaces, in addition to the connecting corridors. The school's administration was looking to create a clean, open space with streamlined visuals that struck a balance between commercial and residential. "We wanted something contemporary that didn't look overly commercial. It was important that the space be relatable to students. Because it was an open design for students to gather, either self-directed or with a tutor, acoustics were also a design consideration," Nguyen said.

Thanh Kim Nguyen, Manager of Campus Planning, Facilities Planning, Design and Construction

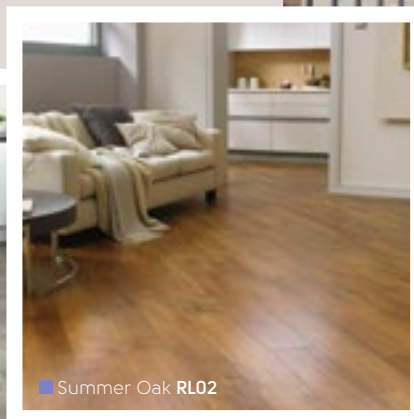

Multifamily

Quality flooring adds value to new developments, and with Karndean Designflooring, property managers benefit from the more practical side of having a versatile, hardwearing, durable floor.

Whether you're retrofitting an existing space or constructing a new property, Karndean Designflooring has many years of experience of working with developers to create unique floor designs that attract residents.

- Unique design capabilities
- Warm and quiet underfoot
- Easy to clean and maintain
- Durable
- Formats to install over uneven subfloors
- No sealing required

Coda Luxury Apartments

Location: Denver, Colorado

Product: Opus Weathered Elm WP511

Coda Cherry Creek is a brand new, luxury apartment complex located in the heart of Denver's Cherry Creek neighborhood. Surrounded by upscale shopping and fine dining, and located only minutes away from downtown Denver, the partners at Zocalo Community Development sought a durable floor that would match Coda's luxury aesthetic, while adhering to a strict budget.

"We looked at a handful of similar products, but Karndean was able to achieve the look we wanted at the lowest cost".

Susan Maxwell, Principal, Zocalo Community Development

Pike Motorworks

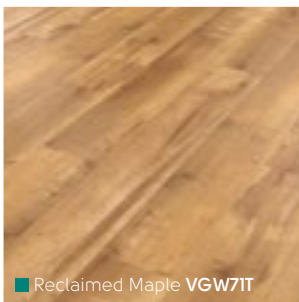

Location: Seattle, Washington

Product: Van Gogh Reclaimed Maple **VGW71T**

Van Gogh

GLUEDOWN

Reclaimed Maple **VGW71T**

Seattle's Pike Pine neighborhood is known for being an edgy, yet historic area of the city. When architecture and interior design firm Weber Thompson was tasked with transforming one of the neighborhood's historic buildings into a mixed-use space, with retail properties on the ground level and multifamily units above, they needed to strike a balance between preserving the building's history with creating a livable space that reflected the surrounding neighborhood.

"We have always loved the Karndean Designflooring aesthetic. We were able to meet LEED material criteria with their FloorScore® certification on the Van Gogh product."

Bernadette Rubio, Senior Design Principal, Weber Thompson

Gluedown

Our gluedown ranges offer unparalleled design, durability and quality with the addition of greater flexibility in customization with design strips, borders, laying patterns and custom cuts.

We offer products at different price points and technical specifications throughout our gluedown collection, ranging from our most affordable range, Knight Tile, up to our most premium collection, Art Select.

Karndean Gluedown

Durable

Compared to other flooring alternatives, Karndean gives you the look and feel of natural products but with the durability and resilience of luxury vinyl.

Waterproof

Unlike laminate and engineered hardwoods, our floors are impervious to water and will not swell, crack or warp when wet.

Low maintenance

All Karndean floors are simple to care for, no sealing, varnishing or waxing required.

Wide range of designs

Inspired by a breadth of natural woods and stones across the full color spectrum, you have a choice of over 150 striking designs and formats to choose from across our six gluedown ranges.

Design capabilities

Our gluedown ranges can be personalized with design strips or complementary borders. Gluedown products can also be curved and cut to fit into even the most unconventional spaces.

■ Reclaimed Chestnut EW21

Karndean LooseLay

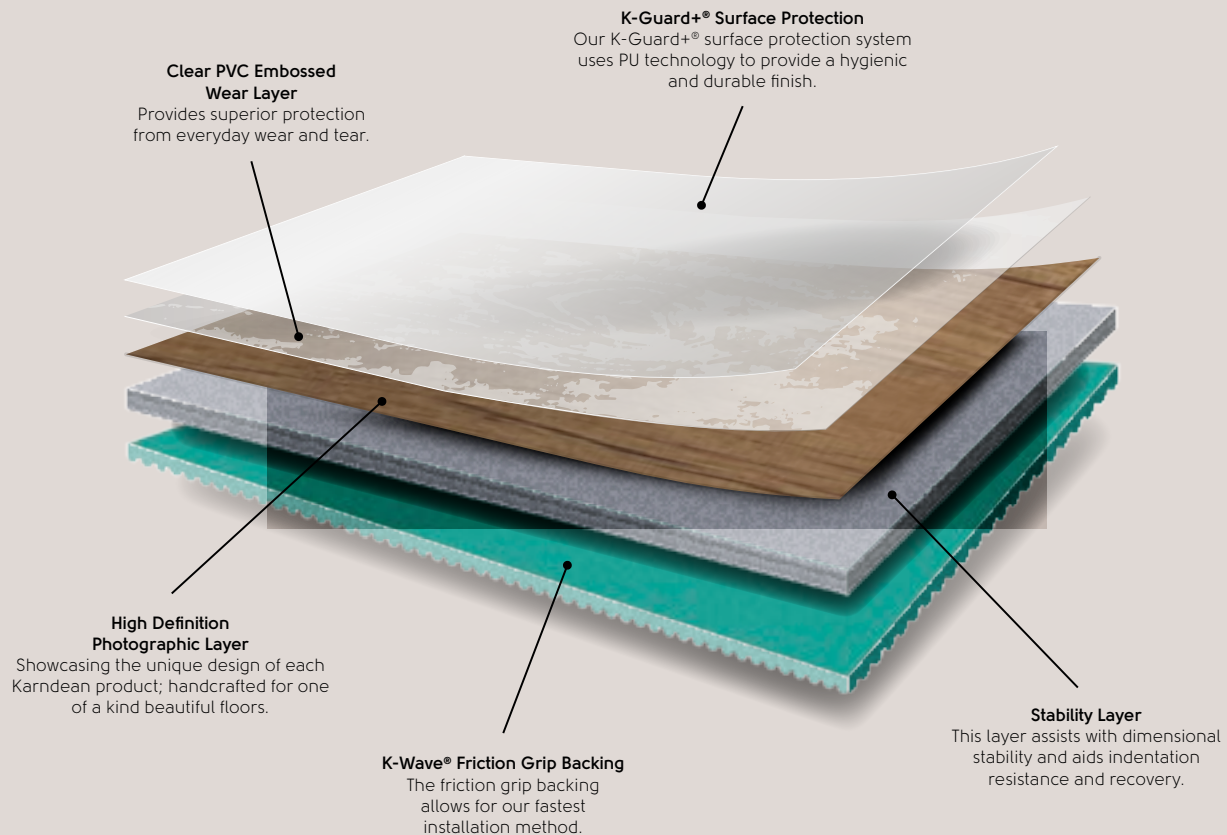

Karndean LooseLay gives you the intricate designs and durability in a format that can be installed quickly and easily in any space, and is designed to perform in a variety of commercial environments, including multifamily, exhibition spaces, sports facilities, pop up shops, and more.

Its K-Wave® friction grip backing secures the floor firmly in place and its 4.5mm thickness allows for an easy transition to carpet tile. With an IIC rating of 56, Karndean LooseLay is perfect for multi-level applications or anywhere that sound is a consideration.

Karndean LooseLay is available in three sizes*:

Karndean LooseLay | Planks 41" x 10", Tiles 20" x 24"

Karndean LooseLay Longboard | 59" x 10"

Clear PVC Embossed Wear Layer

Provides superior protection from everyday wear and tear.

K-Guard+® Surface Protection

Our K-Guard+® surface protection system uses PU technology to provide a hygienic and durable finish.

High Definition Photographic Layer

Showcasing the unique design of each Karndean product; handcrafted for one of a kind beautiful floors.

Stability Layer

This layer assists with dimensional stability and aids indentation resistance and recovery.

K-Wave® Friction Grip Backing

The friction grip backing allows for our fastest installation method.

Karndean LooseLay

Quick and easy to install

Karndean LooseLay easily installs over flat, smooth, dry and dust free subfloors, meaning a quicker installation and less upheaval.*

Individually replaceable

Should you need to replace a piece, simply lift the damaged plank or tile and replace with a new one.

Acoustic qualities

Reduces noise transfer to rooms below by 16 dB, making it perfect for multi-level applications or anywhere that sound is a consideration.

Comfortable underfoot

Our products are softer and warmer underfoot than natural wood.

Durable

Compared to other flooring alternatives, Karndean gives you the look and feel of natural products but with the durability of luxury vinyl.

Low maintenance

All Karndean floors are simple to care for, no sealing, varnishing or waxing required.

Suitable for <95% RH

Karndean LooseLay requires a subfloor that is <95% RH, clean, flat and dust-free.

100% recyclable

■ Ashland LLP95

Rigid core

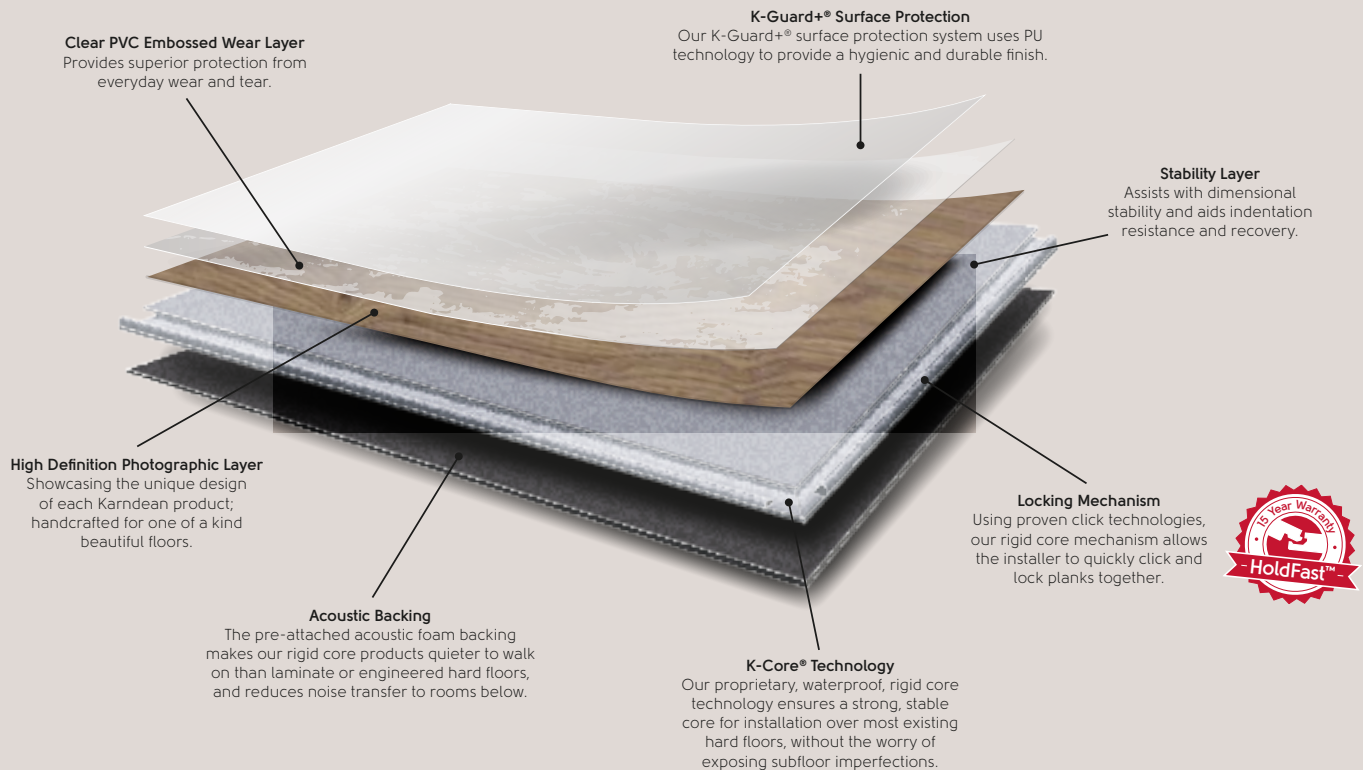

Equipped with our proprietary, 100% waterproof K-Core® technology, rigid core is ideal for installations where acoustics, uneven subfloors or the preservation of existing hard floors need to be considered. Click-locking mechanisms allow for quick installation and the pre-attached backing eliminates the need for a separate underlayment.

Rigid core is available in three specifications:

Korlok Select | 56" x 9" | 5G® locking mechanism

Korlok Reserve | 48" x 7" | 2G™ click-locking mechanism

Van Gogh | 48" x 7" | Click-locking mechanism

Rigid core

Installs over most existing hard floors
Rigid core can be installed over most existing hard floor coverings.

Quick and easy to install
With a click locking system that allows the installer to quickly drop and lock planks together.

Acoustic qualities
Reduces noise transfer to rooms below by up to 22 dB, making it perfect for multi-level applications or anywhere that sound is a consideration.

Extra large planks*
At 56" x 9", **Korlok Select** makes a big impact, but is suitable for both large and small spaces.

Durable
Compared to other flooring alternatives, Karndean gives you the look and feel of natural products but with the durability and resilience of luxury vinyl.

Waterproof
Unlike laminate and engineered hardwoods, our floors are impervious to water and will not swell, crack or warp when wet.

Low maintenance
Easy to clean with a sweep and mop. Doesn't require sanding, varnishing or staining.

Design Components

Decorative Strips

Customize any space using our design strips. Choose from a wide range of tones and textures available in 10mm, 5mm (feature strips only) and 3mm widths (unless otherwise specified). Place them between tiles to create a natural grouting effect or to enhance the design of any space. We have a wide range of strips to work with any interior design scheme.

Choosing a decorative strip

1. Check which strips are compatible with your selected floor.
2. Choose a color.
3. Choose your width - see chart.

Widths available

*Feature Strips Only

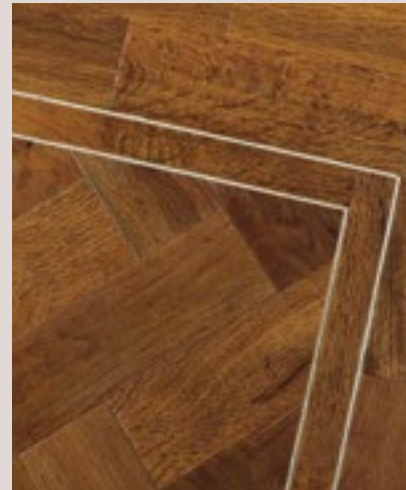

Make a simple design feature around your room by selecting a complementary decorative strip.

Keyline borders

Define your space by adding a stylish keyline border – a single strip which runs around the edge of the room.

Tramline borders

Tramline borders are made up of more than one strip. Choose different colors to suit any style.

Gluedown Compatibility Table

Use this table to check which gluedown ranges can be combined with design features:

	3mm			2.5mm	2mm
Main floor selected:	Art Select	Da Vinci	Van Gogh	Opus	Knight Tile
	✓	✓	✓**	✓***	
	✓	✓	✓**	✓***	
	✓**	✓	✓		
				✓	
					✓

Design features

Custom features cannot be cut from any product shown with an * denoting high color variation.

** Art Select and Da Vinci are only compatible with Van Gogh if it is a cut product. These ranges are not compatible edge-to-edge due to the products' bevel.

*** Art Select and Da Vinci are only compatible with Opus if the product is cut and hand-beveled. These ranges are not compatible edge-to-edge due to Art Select and Da Vinci's bevel.

Important note: Many of the textures and effects common to natural materials are inherent in our products and may appear within design components. We therefore cannot accept any returns on the basis of these effects.

Design strips

Thickness 2mm | 2.5mm | 3mm

These design strips are available for use with all our gluedown floors. Available in 3mm and 10mm widths.

Manufactured to ISO 9001

Color and Pattern Reproduction

We are careful to make sure our brochures are accurate and printed to very high standards, but photography and printing cannot always create a perfect representation of our products. For this reason we strongly recommend that you look at a sample of any product you are considering before placing your order.

All of our products are inspired by things we have seen in the natural world. Just as variation in color and detail is part of the unique beauty of natural materials, it is also a feature of many of our designs. This means that with some of our products you will see natural variation when your floor is laid. If in doubt, ask to see a larger sample of the product.
