Featuring a striking blend of natural tones, our Travertine Stones are full of energy and style - just like the stones that inspired them in Yellowstone National Park. This iconic American landmark is home to Mammoth Hot Springs, a large complex of hot springs on a hill of travertine. Inspired by the natural tumbled travertine photographed from these Hot Springs, our travertines are available in extra-large rectangular tiles and matching FreeLengths.

Melbourne and Canberra, our Parliament Slates, were inspired by the steps of a former Parliament House in Melbourne, Australia.

Our two Welsh Slates, Oakeley and Corris, have been handcrafted to reflect the rugged texture and natural charm of the stones that inspired them.

Understated and classic, our marble tiles are inspired by the natural white and blue-gray marble from the world-famous quarries in the Providence of Massa, Tuscany. Tucked away in the provincial mountains near Carrara, these quarries have provided some of the finest marble dating back to the days of Ancient Rome.

Capture the character and beauty of natural limestone formations with our Island Limestones. Inspired by the coastlines of the English Channel Islands, our Island Limestones are cool, fresh and naturally earthy with a dappled handcrafted texture. Each Limestone floor comes in a random layout reflecting the random nature of real stone flooring. From the cool, calm hues of 'Alderney' to the deep, dusky gray and charcoal tones of 'Herm', there's sure to be a color to match your interior style.
