

Karndean
Designflooring

SEE FLOORING
differently

Korlok

Beautiful, premium and resilient vinyl rigid core.
Secure your home with a lifetime warranty
and HoldSafe® click-locking guarantee.

At Karndean we see flooring differently...

We travel the world in our quest to bring you exceptional floors that inspire and delight. From the ancient forests of Europe, to the remote Australian outback and beyond, we seek out expressive and intriguing forms in the natural world to influence our unique floor designs.

By combining these original features with cutting edge design, we create simply beautiful floors you'll love for a lifetime.

Why choose Karndean?

16

Imagery and Design Reproduction

Photography and print cannot always produce a perfect representation of our products. This includes colour, pattern variation and installation elements used.

For this reason we strongly recommend obtaining a product sample and where possible viewing a larger sample in-store. We also recommend visiting our website for information on installation, after care and product selection. We love developing new ideas and improving on our existing designs which means that sometimes products are withdrawn at short notice.

We hate to disappoint and will work with you to find an alternative design. Please contact Customer Service for more information. It is recommended that when selecting flooring products, you verify compliance with building regulations and certification practices relevant to your local area. All Karndean range and format credentials are at our certification policy level – please check for the current certification status.

Stone designs

Why choose Karndean rigid core?

Resilient LVT 5G® click floating flooring system

Our innovative Korlok luxury vinyl (LVT) floating flooring range offers an array of stunning wood and stone designs. Experience the convenience of a superior low profile with Korlok's 6.5mm thick plank or tile aligning with your other flooring types for quick and effortless installation coupled with exceptional acoustic benefits. Our flooring is engineered with our revolutionary K-Core® technology, allowing for easy installation over most existing hard surface floors, effectively concealing minor depressions for a flawless finish. Plus, with our patented 5G® click-locking mechanism and pre-attached acoustic foam backing, installation becomes a simple and hassle-free process, saving you time and effort.

What distinguishes resilient flooring from laminate or other hard flooring alternatives?

Resilient flooring, including rigid core LVT, is crafted to endure the rigours of daily life while offering comfort and longevity. Unlike traditional flooring types, (such as ceramic tiles, stone flooring, finished concrete, engineered timber and laminate), resilient floors are designed to minimise the impact of minor imperfections from subfloors, ensuring a smooth and seamless appearance throughout your space.

When durability matters:

Rigid core flooring robust construction and resilient core is your go-to solution for withstanding the chaos of everyday life, making it perfect for busy households and high-traffic areas. Whether it's kids, pets, or frequent guests, our flooring can handle it all, ensuring your floors stay beautiful for years to come.

When peace and quiet are priorities:

Your home should be a sanctuary of peace and quiet. That's why our flooring comes with built-in acoustic foam backing, for added noise reduction. Say goodbye to noisy footsteps and hello to a calmer, more peaceful living environment.

When you value quick installation:

Installing new floors shouldn't be a headache. Our 5G® click-locking system enables quick and easy installation of rigid core flooring, minimising disruption to your home during the installation process. No need to wait around - enjoy your new floors in no time!

When you need versatility:

Rigid core flooring can be installed over most existing hard floors, including ceramic tiles and floorboards, saving time and money on subfloor preparation. Your flooring professional will guide you through this with their free in-home measure and quote service.

When maintenance should be a breeze:

Cleaning your floors shouldn't be a chore. Our resilient rigid core flooring makes maintenance a breeze. With its smooth surface, a quick sweep and mop are all you need to keep your floors looking pristine, saving you time and effort.

When you're concerned about subfloor imperfections:

Our rigid core flooring smooths over most minor imperfections, minimising the need for levelling compounds or additional underlayments, giving you a flawless finish every time. Rigid core flooring is detached from the substrate, eliminating the need for adhesive, and disguising the visual effect of negative surface imperfections. Say goodbye to rough surfaces and say hello to a smooth new Korlok floor. Your flooring professional will guide you through this with their free in-home measure and quote service.

Where the magic happens...

Superior resilient rigid core vinyl flooring construction

Subfloors can present challenges, often featuring lumps, cracks, or undulations that may affect the look and feel of conventional resilient flooring. However, Karndean's Korlok range surpasses conventional solutions. Our innovative EPC (Expanded Polymer Core) K-Core® technology strikes the perfect balance between strength and flexibility, effectively reducing hollow gaps and minimising the drummy noise commonly associated with floating floors. With K-Core® technology, enjoy unparalleled sound insulation, providing up to 21dB sound reduction. Experience the ultimate combination of durability, performance, and aesthetics with Korlok.

Scan to find out more about our formats

1. K-Guard+® Surface Protection

Our K-Guard+® surface protection system uses PU technology to provide a hygienic and durable finish.

2. Clear PVC Embossed Wear Layer

Provides superior protection from everyday wear and tear.

3. High Definition Photographic Layer

Showcasing the unique design of each Karndean product; handcrafted for one of a kind beautiful floors.

4. Stability Layer

This layer assists with dimensional stability and aids indentation resistance and recovery.

5. K-Core®

The binder in the core is composed of 100% PVC (no wood flour) to ensure a stronger, more stable core for installation over most existing hard floors without the worry of exposing subfloor imperfections*.

6. 5G® Locking Mechanism

Using a single action installation method, the 5G® mechanism allows the installer to quickly click and lock planks together.

7. Acoustic Backing

Our pre-attached acoustic foam backing makes rigid core products quieter to walk on than laminate or engineered hard floors, and reduces sound transfer to rooms below.

Developed by Välinge Innovation AB, this patented technology is backed by the assurance of the HoldSafe® warranty. The registered trademarks, 5G® word mark and logo, belong to Välinge Innovation AB.

Note: Rigid core is not suitable for wet areas like bathrooms. It is recommended that when selecting flooring products, you verify compliance with building regulations and certification practices relevant to your local area.

Easy to clean

Easy to clean with a sweep and mop, doesn't require sanding, varnishing or staining.

Waterproof*

Bid farewell to worries about spills – proprietary K-Core® technology ensures our floors resist moisture, avoid swelling, cracking, and warping, ensuring long-lasting durability.

To guard *and protect*

High heels. New furniture. Family pets. Our floors go through a lot.

Step onto floors that guard and protect against life's daily challenges. Thanks to our K-Guard+® surface protection, Karndean floors boast commercial-grade durability, shielding against most scuffs, stains, and scratches, ensuring long-lasting beauty. Coupled with our added stability layer, our rigid core products resist indentation and maintain their pristine appearance through whatever life throws their way.

*Note: Rigid core is not suitable for wet areas like bathrooms. It is recommended that when selecting flooring products, you verify compliance with building regulations and certification practices relevant to your local area.

K-Guard+®

Our K-Guard+® surface protection system uses PU technology to provide a hygienic and durable finish. Engineered to resist deformation under elevated temperatures, delivers superior thermal stability, and has a history of premium performance.

Hygienic living spaces

Say goodbye to allergen-trapping carpets – our floors provide a clean and allergen-free environment for your family.

Enhanced comfort

Step onto floors that are softer and warmer underfoot compared to traditional wood and stone flooring.

Texture

brought to life

From smooth finishes to tactile textures, to registered embosses that showcase each individual knot and grain, every Karndean product comes with a beautiful emboss that enhances the final design. With Karndean flooring, you not only get superior durability and performance but also the timeless beauty of nature, making every step a delight.

Embossed Wear Layer

Our clear PVC wear layer provides superior protection from wear and tear. The realistic surface texture delivers durability and is ideal for busy environments.

Inspired *by nature*

Our designers spend years perfecting our products, drawing inspiration from the intricacies of nature for our signature realistic wood and stone finishes. And with practical benefits designed to suit every lifestyle for years to come, Karndean flooring is even better than the real thing.

Nature-inspired realism

Bring the beauty of nature indoors with our meticulously crafted realistic replicated wood and stone designs, inspired by the natural world.

Peace of mind warranty

Trust in our commitment to quality – every Karndean floor is backed by a residential lifetime guarantee for years of lasting performance.

High Definition Photographic Layer

Showcasing the unique design of each Karndean product, handcrafted for one of a kind beautiful floors.

On stable ground

With the added stability layer, our Korlok range in rigid core hybrid vinyl format, resists indentation and withstands spills & mishaps that life throws at them.

Stability Layer

This layer assists with dimensional stability and aids indentation resistance and recovery.

Korlok has a special 'annealing' process during manufacture to ensure that it stays flat when exposed to elevated temperatures.

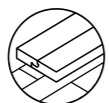

Strength *at its core*

Due to our innovative K-Core® layer, our Korlok EPC rigid core designs are ideal for high-traffic areas offering reliable performance and longevity and can be laid directly over most existing hard floors without the need for extensive subfloor preparation, therefore preserving them. Perfect for renovating, rented or listed dwellings!

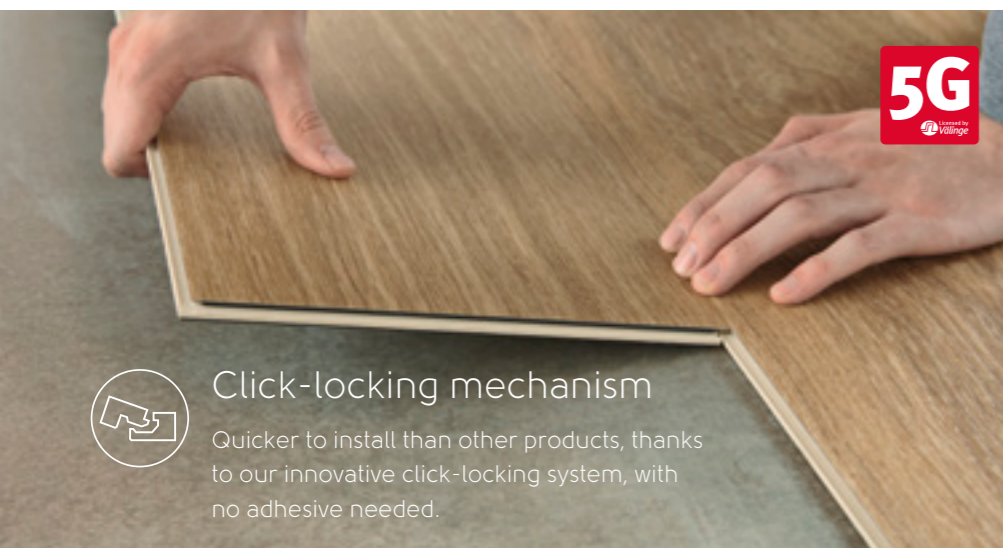

Quick and easy to install

Our rigid core designs are up to 30% quicker to install than other floor types.

Minimal disruption

Can be installed over most existing hard floors, allowing you to move furniture back in quickly.

Click-locking mechanism

Quicker to install than other products, thanks to our innovative click-locking system, with no adhesive needed.

Experiencing peace of mind with our HoldSafe® Warranty

Protection for your floors locking mechanism Karndean offers a unique HoldSafe® lifetime residential warranty for Korlok, equipped with the innovative 5G® Locking Mechanism.

Developed by Välinge Innovation AB, this patented technology is backed by the assurance of the HoldSafe® warranty. The registered trademarks, 5G® word mark and logo, belong to Välinge Innovation AB.

Scan to find out more about **Välinge**

Before this product may be installed, all subfloors should be solid and sound, smooth and level, clean and swept free of all debris.

* Any unevenness in the subfloor should be limited to a maximum of 5mm below the level for 3m in any direction.

** Fix any loose tiles. Level any grout lines that are 5mm or less wide. With the exception of laminate which is normally recommended to be uplifted.

*** Existing floorboards need to be firmly fastened, gaps filled and levelled to install rigid core.

Minor subfloor imperfections*

Existing hard floor**

Existing floorboards***

K-Core® Technology

Our proprietary K-Core® technology is composed of reinforced 100% PVC (no wood flour) ensures a stronger, more stable core for installation over most existing hard floors without the worry of exposing subfloor imperfections*, and it's waterproof ensuring our floors resist moisture, avoid swelling, cracking, and warping reducing concerns about everyday spills and splashes. K-Core® Technology – EPC (Expanded Polymer Core) with dense 'cellular' structure for superior resilience.

Silence
is golden

Reduces sound transfer

Reduces sound transfer to rooms below. The perfect option for upstairs rooms, flats, or apartments.

The sound from kids' bedrooms, play rooms and loft conversions are reduced by as much as 21dB thanks to our pre-attached acoustic backing. This unique sound-absorbing construction eliminates the need for additional underlay for soundproofing during installation. Compared to laminate or stone floors, our rigid core products are exceptionally quiet and the perfect choice for busy family homes.

Acoustic backing

Our pre-attached premium acoustic foam backing makes our products quieter to walk on than laminate or engineered hard floors, and reduces sound transfer to rooms below, eliminating the need for separate underlay.

From our home... to your home

It all began in 1973 when a former flooring installer created a small business from his family home.

With the belief that luxury vinyl flooring shouldn't just be practical, it needed to be beautiful as well, Karndean was formed. The team set out to travel the world, seeking inspiration from natural materials for what now are the most realistic luxury vinyl flooring products on the market.

The Karndean team worked out of that house for several years with the family's trusty dog Smokey, the Great Dane who is still present on Karndean's logo today. For the family and Karndean's early employees — many who are still working with us today — these years bring back many fond memories.

Now stretching across the globe, far beyond the walls of the original house, we continue to move forward with the same passion to deliver beautiful, innovative designs for your home.

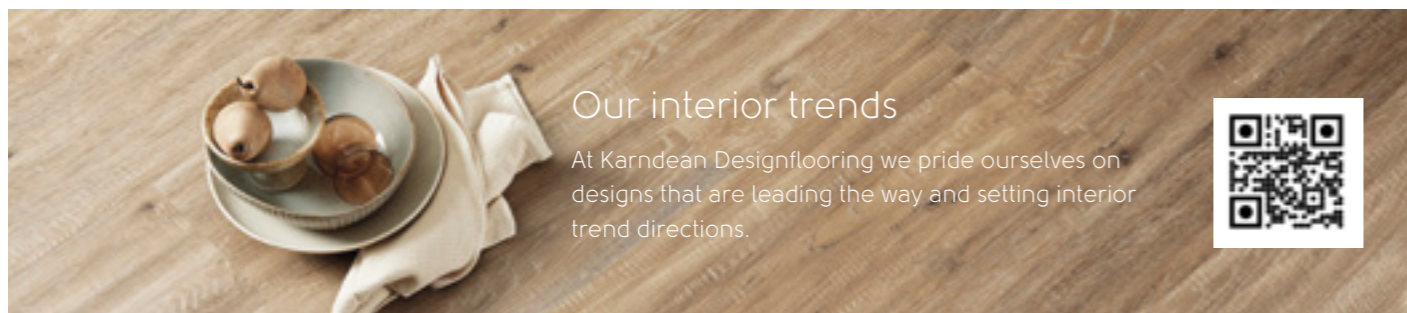

Many elements must fit together, from furniture to flooring, to fixtures and everything in between. Where to begin?

We begin a new design with inspiration, and we are most inspired by nature. What's your design motivation? Is it aesthetic, such as a cushion or the perfect paint chip? Or is it lifestyle, a place where you can dance in your pyjamas and your babies (both two and four-legged) can roll around and play?

No matter what drives you, Karndean Designflooring was created with your needs in mind. We see flooring differently and by combining original features with cutting edge design, you can create a simply beautiful floor that you will love for a lifetime.

Our simple method will help you navigate the selection process and design your perfect floor, taking you beyond picking a colour and measuring the room. Let's get started!

Our interior trends

At Karndean Designflooring we pride ourselves on designs that are leading the way and setting interior trend directions.

Designed for you

Every one of our floors is unique to us, having been lovingly created by our inhouse team. Our product designers select natural woods and stones to work with, taking the time to carefully replicate the knots, grains and textures found in these products into our designs. We apply different techniques of staining, brushing and oiling to name a few to create the perfect look and feel bringing you a simply beautiful floor.

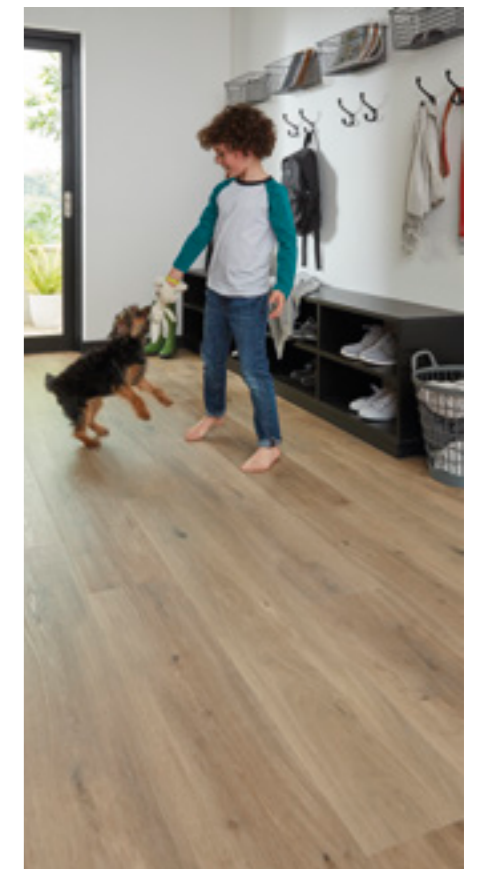

Over 50 years of experience

Designed to perform

Our floors are meticulously crafted for exceptional performance in diverse settings, prioritising durability, resilience, and practicality for residential and commercial use. Engineered to endure the rigours of daily life, our floors are water-resistant and offer superior surface protection against scratches and scuffs. They are also effortless to clean and maintain, maintaining their appearance with minimal upkeep. With a focus on quality and longevity, Karndean flooring surpasses expectations, delivering lasting beauty for a lifetime.

Did you know?

Back in 1973, Smokey the Great Dane worked alongside the family and is still present on our logo today.

It's a new day

And we're ready to create a **better tomorrow!**

It's a continuing journey, and there are no shortcuts. Now is the time for everyone to begin taking bigger steps. Ours is a promise to think differently, act decisively, and create real change.

It's a promise to Evolve.

Five decades ago, our family-owned business was founded on innovation, bold action and a pioneering spirit. Fifty years later, those same ideals guide us forward. Because the future demands change.

It's time to create a better tomorrow.

Discover Karndean Evolve™

Sustainability is a journey that requires a roadmap.

Ours is a detailed model that includes six areas of focus.

Confront climate change

Karndean's products prioritise sustainability through remarkable longevity, with a guaranteed service life of 35 years for domestic use. This extended durability has a significant positive environmental impact over time, promoting an eco-friendlier future.

Health & wellbeing

Karndean's products prioritise wellbeing, surpassing mere aesthetics. Free from harmful substances like heavy metals and unsafe phthalates, they're certified for indoor air quality post-installation. Our dedication to healthy interiors extends to using water-based or solvent-free adhesives, minimising VOC emissions. Your health and comfort are central to Karndean's philosophy.

Sustainable use of resources

Karndean prioritise the use of recycled materials in their products, with all of them incorporating up to 50% recycled PVC in their backing layers, sourced from post-production waste. We validate our contribution to reducing landfill and promoting recycling.

Inclusion & diversity

We prioritise equity, inclusivity, and diversity, fostering them through engagement and education. In our workplace, we celebrate everyone's contributions as responsible corporate citizens. These values influence our environmental policies, responsible sourcing/trading, and contributions to communities. Our founder's principles still shape our commitment to responsible operations.

Supply chain transparency

Third-party certifications for environmental and social responsibility, including fair treatment and safe conditions for workers. Karndean's factories prioritise recycled materials and recyclability, to ecofriendly product packaging, setting the benchmark for environmental responsibility. Certified manufacturing adhere to ISO 14001 and ISO 9001 standards.

Education

We educate employees about the importance of sustainability, helping them understand what role they play and devise new ways of working. By conducting CPD classes and speaking engagements with organisations like the Green Building Council of Australia, we actively contribute to the training of professionals in the design and construction.

Our other ranges at a glance

Our flooring collections bring the authentic beauty of natural wood and stone into your home, replicating the intricate details and unique characteristics found in natural materials. Every design is thoughtfully crafted to reflect the rich variation of colours, shades, and textures seen in nature. With a wide range of options, from soft, light tones to deep, dark hues, and enhanced with realistic embossing, you're sure to find the perfect style to transform your living space.

Scan to view our **Home Catalogue** for more information about our vinyl flooring ranges.

Three vinyl flooring options to suit your needs

Choosing the perfect floor for your home can be a tough decision. That's why we offer our stunning, design-led flooring in three versatile formats: loose lay, rigid core hybrid, and gluedown. This way, you can enjoy the look you love with the installation method that best fits your needs. Speak with your installer or retailer to explore the options and find the ideal solution for your space.

Loose lay

Reduce noise: Ideal for loft conversions or upstairs rooms where soundproofing is important.

Quick installation: Perfect for fast, hassle-free installations.

Flat subfloor: Best for completely flat, dry subfloors prepared by a flooring professional.

Maximum versatility and stability: Suitable for most areas of use and does not require expansion gaps.

-  Individually replaceable
-  Quick and easy to install
-  Reduces noise transfer
-  K-Wave® friction grip backing
-  Laying possibilities

Rigid core

Superior acoustics: Excellent for upstairs rooms, reducing noise between floors.

Quick installation: Fast to install, even over most existing floors like tiles or floorboards.

Uneven subfloors: Versatile installation over most subfloor types, hiding minor imperfections

High durability: Perfect for high-traffic areas and homes with kids or pets.

-  Click-locking mechanism
-  Reduces noise transfer
-  Quick and easy to install
-  Installs over most existing hard floors

Gluedown

Bespoke creations: Mix wood and stone designs for a unique look.

Flat subfloor: Best for completely flat, dry subfloors prepared by a flooring professional.

Maximum durability: Suitable for high traffic areas.

Longevity: Provides long-term durability and resistance to wear.

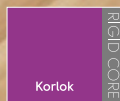

-  Individually replaceable
-  No expansion gap required
-  Individual, glued down planks and tiles
-  Laying possibilities

Designflooring

SEE FLOORING
differently

Korlok

Beautiful, premium and resilient vinyl rigid core.
Secure your home with a lifetime warranty
and HoldSafe® click-locking guarantee.

Choose your Korlok design

All Karndean products are manufactured in compliance with international and Australasian standards for environmental and quality management. Korlok tiles and planks are produced in factories certified to the ISO 14001 Environmental Standard and ISO 9001 Quality Standard. Additionally, the Korlok range is backed by a product-level Environmental Product Declaration (EPD) and Floorscore Indoor Air Quality Assurance, independently certified and globally hosted by SCS Environmental Services.

1420.0 x 225.0mm (55.91" x 8.86")

KORLOK Thickness: 6.5mm | Wear layer: 0.5mm | Bevel: Micro | Box quantity: 3.195m² / 10 planks

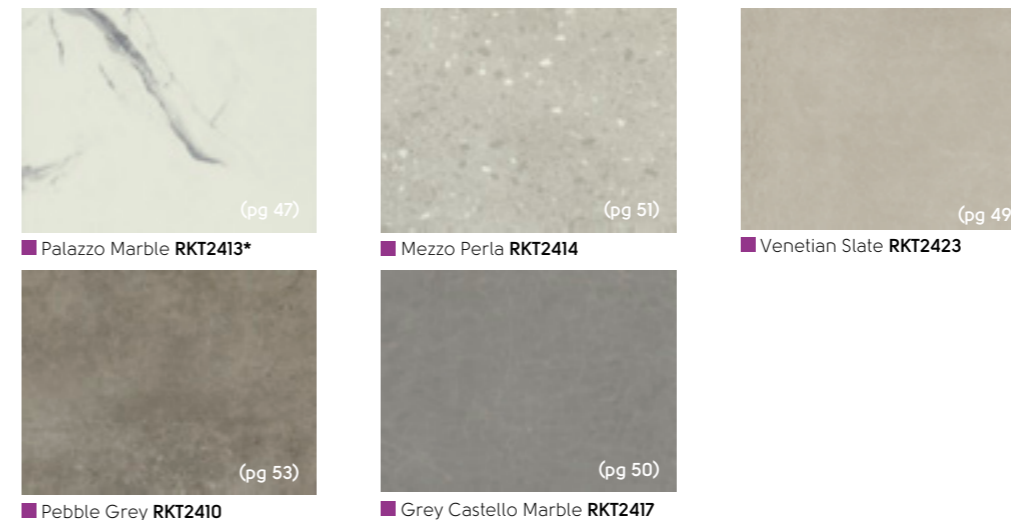

Developed by Välinge Innovation AB, this patented technology is backed by the assurance of the HoldSafe® warranty. The registered trademarks, 5G® word mark and logo, belong to Välinge Innovation AB. Enjoy all the advantages of a floating floor with the enhanced security of our superior vertical click-locking mechanism. The HoldSafe® warranty guarantees flooring joints will stay secure for a lifetime in residential homes, provided the planks and tiles are installed according to our guidelines and used as recommended.

***It's crucial to remember that 'high variation' is an intentional design element, adding visual intrigue to your floor by emulating the complexity of the natural world.**

While all our products exhibit variations (a premium feature that enhances the authenticity of Karndean products), our High Variation designs have been specifically identified by our Product Team for their exceptionally pronounced differences in shade, colour, texture, and pattern among individual planks. This sets them apart from other brands, which often provide more predictable and straightforward patterns.

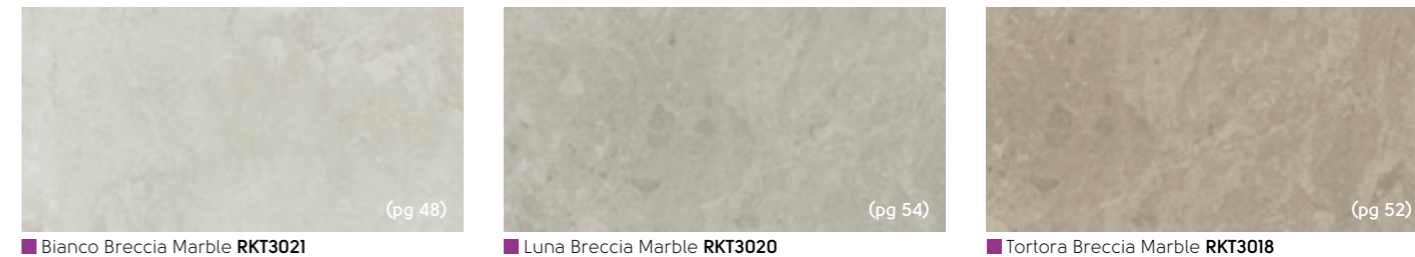

457.0 x 600.0mm (17.99" x 23.62")

View Korlok range

KORLOK Thickness: 6.5mm | Wear layer: 0.5mm | Bevel: Micro | Box quantity: 2.742m² / 10 tiles

457.0 x 935.0mm (17.99" x 36.81")

KORLOK Thickness: 6.5mm | Wear layer: 0.5mm | Bevel: Micro | Box quantity: 2.564m² / 6 tiles

Inspired by Australian woods.

*As a feature of the design, these products incorporate a high variation between individual planks.

Installing accessories

To complete the proper installation of your Korlok floor, we recommend laying it underneath your skirting boards (this is called undercutting) to conceal the necessary 5mm expansion gap required for rigid core planks and tiles to expand and contract with seasonal temperature changes, opting for a premium finish. Additionally, your local flooring expert will assist you in selecting from a variety of accessory options, such as skirting, stair nosing, and various trims & channels that support a run of floor more than 15m, to seamlessly complete your flooring installation.

Installing Korlok

Korlok's 100% PVC 'score and snap' rigid core layer means installers are able to cut Korlok by hand without the need for expensive power tools resulting in quicker install with minimal home disruption and mess.

It is essential that this 5G® rigid core product is installed in accordance with these instructions as well as the applicable national standards and building codes for the installation of resilient flooring at the time of installation, to ensure a quality fit. Prior to installation, please check that this product is suited to the end-use application. Please scan to view the comprehensive Korlok installation instructions as well as information about expansion gaps, acclimatisation and plank/tile feathering.

Korlok installation guide

Our source of inspiration

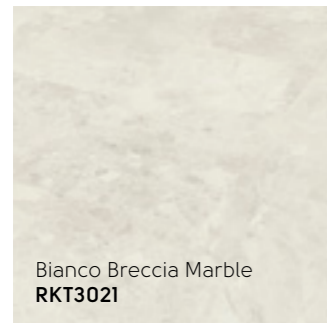

For decades, Karndean Designflooring has led the way in durable, luxury vinyl flooring. Our designers draw inspiration from the natural world, perfecting and curating our ranges so each one is as unique as you and your space. Innovative technology and quality materials ensure you own a beautiful floor true to the natural material that inspired it.

Marble

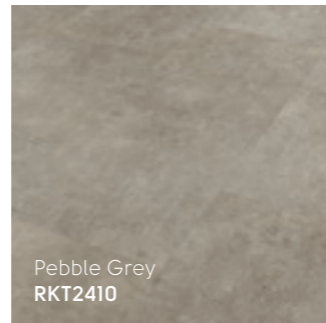

Marble is celebrated globally for its breathtaking beauty and reputedly Michelangelo's preferred stone for carving. Originating from Italy, Marble is both scarce and valuable. Our design team dedicated themselves to creating genuine and captivating Marble designs, capturing the timeless veining and luxurious essence found in Italian palaces and cathedrals.

Limestone

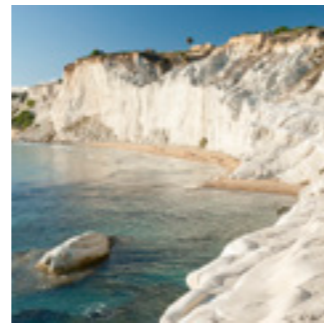

This ancient rock is widely exposed over large regions around the globe, forming karst landscapes as it erodes. Limestone as a flooring material can be traced back thousands of years. Our designers have captured the modern allure of limestone, providing a subtle yet stylish solution to introduce contemporary sophistication into any interior. Acknowledging limestone's global appeal and popularity in tiled flooring, our team meticulously etched, sandblasted, and honed the stone to achieve a refined finish that enhances its natural texture and tonal variations.

Bianco Breccia Marble
RKT3021

Pebble Grey
RKT2410

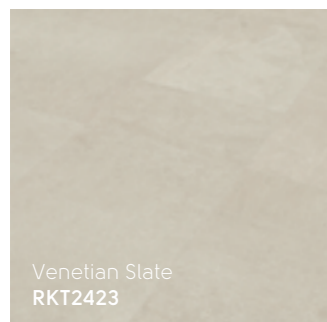

Slate

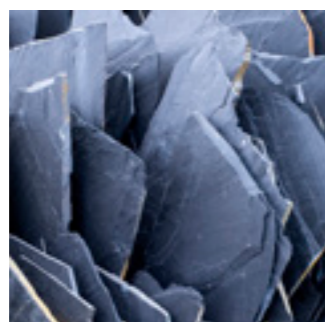

An ancient type of sedimentary rock composed of clay or volcanic ash, forming a variety of colours depending on where it is quarried. Our design team have visited quarries and sourced volcanic slate by hand, selecting pieces of this 300-million-year-old stone. Each piece was individually unique in character and detail. The resulting flooring tiles feature subtle variations to offer a clean finish with slight flecks of tonal colour to add depth and interest.

Terrazzo

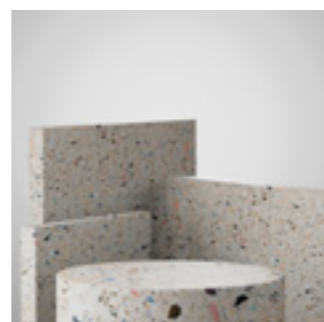

Terrazzo, originating in Italy, began as a creative use of stone offcuts by quarry workers in their own homes. Today, traditional colourful terrazzo looks blend with modern designs featuring tone-on-tone tiles, appealing to the ongoing preference for neutral floor designs. To align with the combined concrete and terrazzo trend, coloured chips were removed, leaving a visible concrete backdrop that delivers a more subdued appearance. This approach retains the essence of terrazzo while showcasing its features in a less dominant manner than the original stone.

Venetian Slate
RKT2423

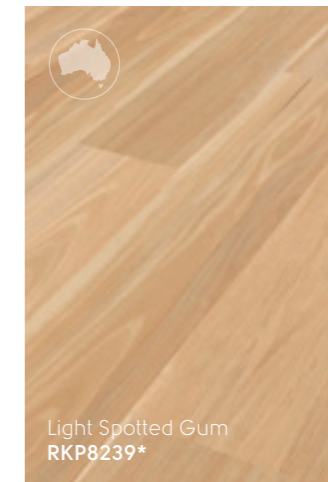

Mezzo Perla
RKT2414

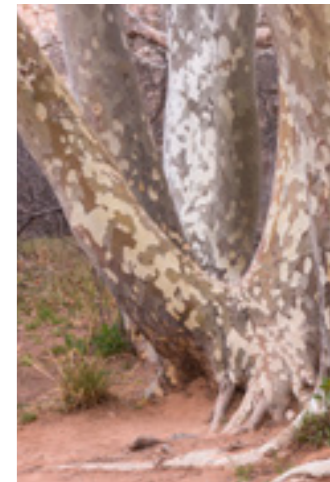

Australian Species

Australian woods have long been celebrated for their strength and versatility. Today, Spotted Gum and Blackbutt are equally prized for their distinctive character. Shaped by some of the world's harshest conditions, including droughts, bushfires, and searing summer heat, their unique wood grains, colours, and tones are extraordinary. Our collection of Aussie woods captures the renowned beauty of these Australian timbers in every design.

Light Spotted Gum
RKP8239*

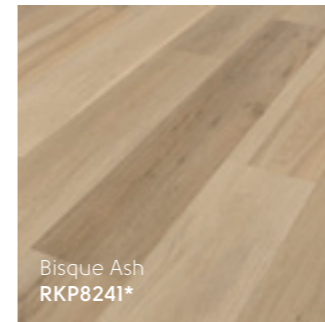

White Ash

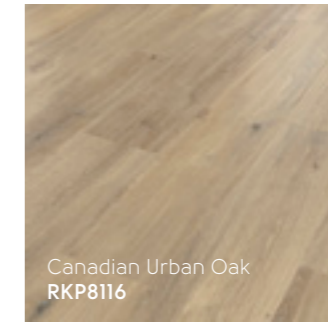

White Ash, native to North America, is celebrated for its attractive straight grain, occasionally accented with hints of a flowery pattern. The wood maintains consistent natural variation. This distinctive quality, combined with its subtle yet striking grain, makes White Ash a favoured choice for elegant and refined interiors. Our expressive designs capture the very essence of natural Ash with distinctive detailing. The lightly brushed appearance adds a touch of visual texture, enhancing its steady character and gentle, burnished knot features.

Oak

European and American Oaks are renowned for their timeless and luxurious appeal. European Oak covers about 35% of Europe's land area, while in North America, American Oak is celebrated as one of the USA's most distinguished trees. Our designers have perfectly captured their subtle beauty, with open-grain patterns, delicate medullary rays, distinctive growth rings, and natural colour variations. From neutral timber looks to cooler, limed contemporary tones, we bring new character to these designs while highlighting their natural elegance.

Bisque Ash
RKP8241*

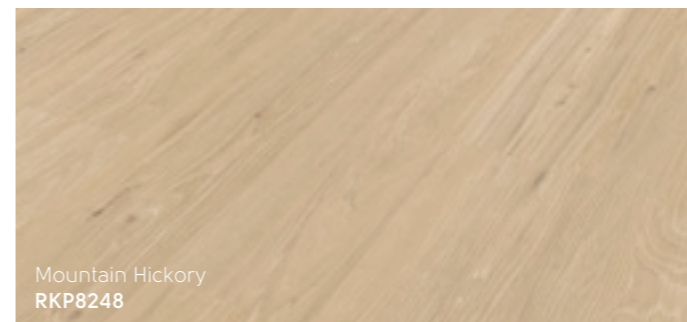

Canadian Urban Oak
RKP8116

Hickory

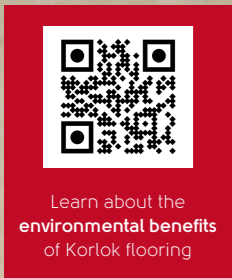

Sourced from well-managed American forests in Utah, USA, this esteemed hardwood is valued for its strength, toughness, and hardness. Our Hickory presents a distinctive appearance chosen from a diverse range of original timbers. It preserves unique characteristics such as gentle knots, brushed features, and subtle colour variations, ensuring a truly distinct option in our collection.

Mountain Hickory
RKP8248

*As a feature of the design, these products incorporate a high variation between individual planks.

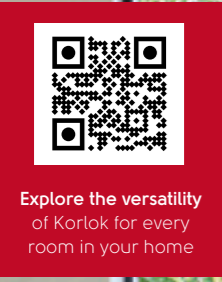

Light Spotted Gum **RKP8239**

Inspired by Australia's popular native Spotted Gum, this design showcases gentle grain markings against a palette of natural blonde hues, inviting timeless versatility.

Canadian Urban Oak **RKP8116**

Showcasing deep blond tones with a brushed finish that highlights its natural colouring and knots. This versatile design suits a range of interiors.

Warm Spotted Gum **RKP8118**

This design captures the essence of Australian spotted gum with natural tonal variations and a mix of warm and golden hues.

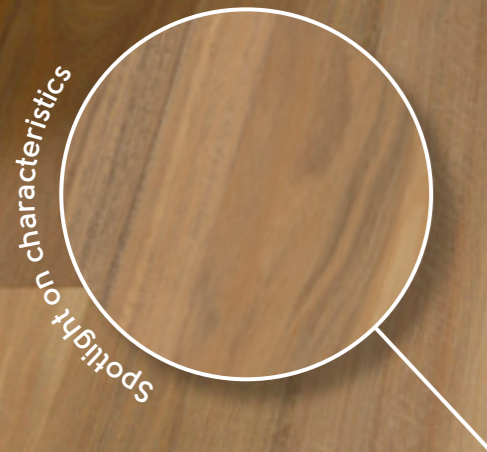

Grey Loire Oak **RKP8244**

Inspired by premium French Oaks, this design offers realism and light rusticity with light flaming, limed crowns and softly burnished knots across a foundation of muted hues.

See how high variation enhances design

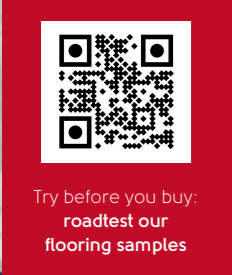

Weathered Spotted Gum RKP8119

This Australian spotted gum design blends rich ashy grey and warm brown tones, offering a gentle rustic charm.

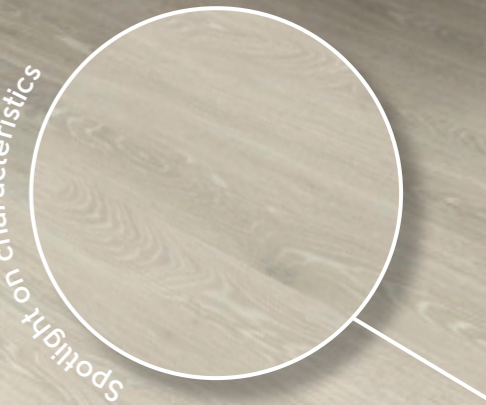

Limed Loire Oak RKP8243

Characterful detailing boasts a subtle rustic charm with natural flaming, limed crowns and softly burnished knots. Champagne and parchment hues add sophistication and understated charm.

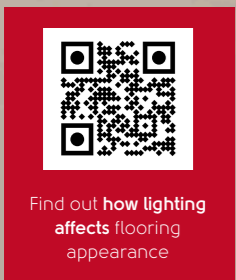

Natural Blue Gum **RKP8240**

Distinctive and commanding, the essence of Blue Gum is showcased across light to mid-neutral hues, accented by silvery highlights and blue-grey shadowing.

Pale Loire Oak **RKP8245**

Drawing inspiration from luxurious European Oak, this flooring design perfectly blends modernity and refinement showcased with a cool palette of warm white hues.

Texas White Ash **RKP8105**

Texas White Ash features pale neutral tones and natural colour variation, with straight-grain detailing for a clean finish.

Golden Ash RKP8242

Boasting a marriage of gold and bronze hues, subtle white liming and gentle burnished knot features, this design embodies a gentle, rustic appeal.

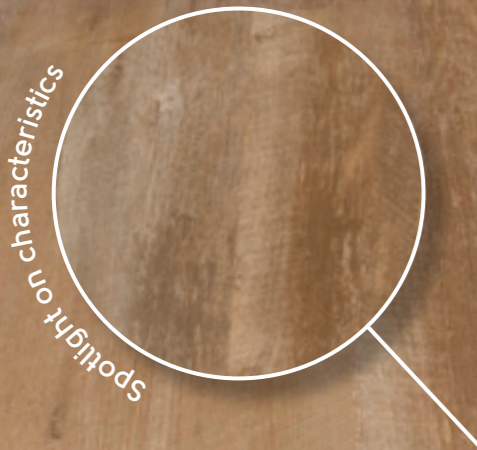

Spotlight on characteristics

Baltic Washed Oak RKP8101

The distinctive markings from blending timber grades and machine-brushing paired with grey undertones will add character to any space.

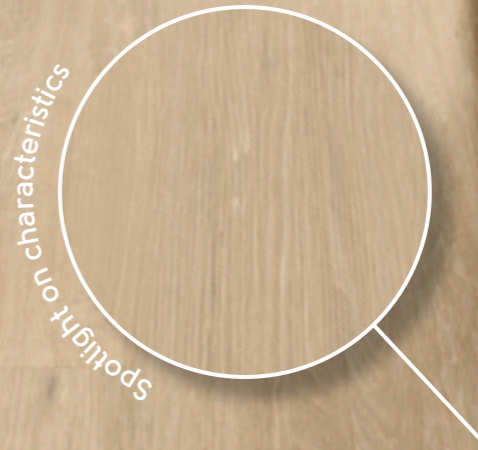

Protect your investment with Karndean's lifetime warranty

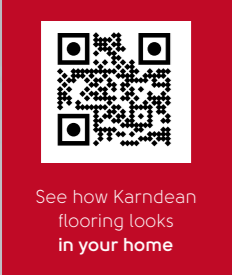

Light Barnwood **RKP8207**

This unique floor design inspired by salvaged American timber, features heavy tonal shifts and varied characteristics that create a bold statement.

Mountain Hickory **RKP8248**

The rugged allure of this design boasts distinctive character with its delicate figuring, discrete knots and pale crowned features.

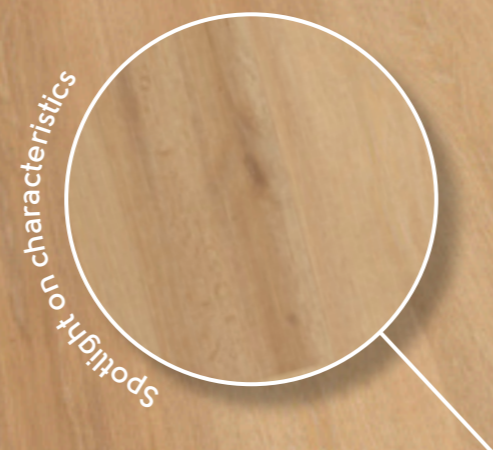

Bisque Ash RKP8241

Inspired by the timeless White Ash, exhibiting honed characteristics, fine knots and light liming across bisque tonal shades for classic appeal.

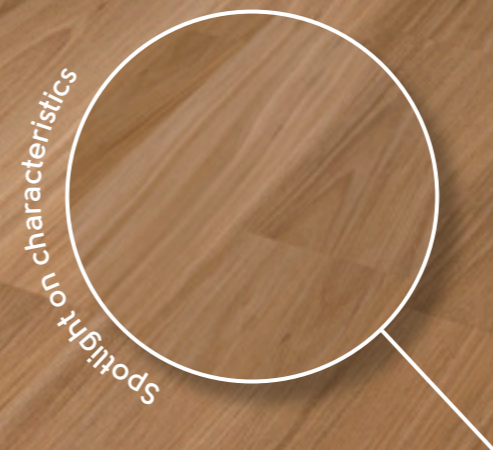

Antique French Oak RKP8110

The vintage hues accentuate the authentic historical markings and natural wear of reclaimed wood. This design is rich in character and uniqueness.

Warm Ash RKP8103

This warm, mid-toned floor offers striking plank-to-plank variation with a subtle softness in its grain, making it ideal for minimalistic spaces.

Refined Fiddleback Blackbutt RKP8247

Celebrating the inherent beauty of Blackbutt with intricate fiddleback markings embodied in a rich, warm colouration, each plank echoes the natural elegance of this species.

Venetian Slate **RKT2423**

Originally sourced from volcanic quarries, Venetian Slate features off-white hues and tonal flecks, providing a smooth, neutral backdrop for interiors

Grey Castello Marble **RKT2417**

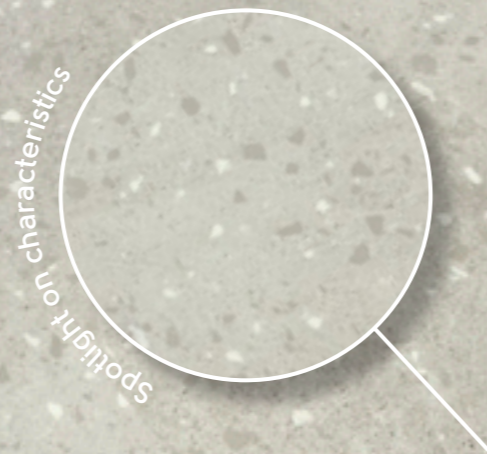

Grey Castello Marble, inspired by 'gris pulpis' marble, offers earthy medium grey tones and subtle veining.

Mezzo Perla RKT2414

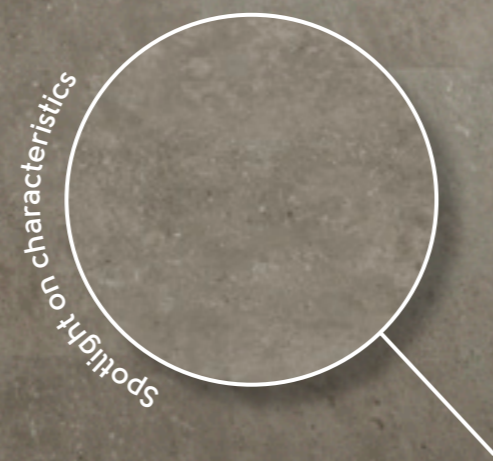

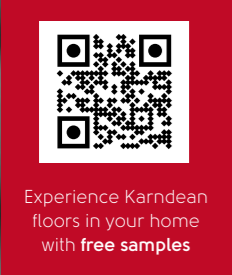

This sophisticated terrazzo design features pale grey background and mid-sized chips in darker grey and white for contemporary appeal.

Tortora Breccia Marble RKT3018

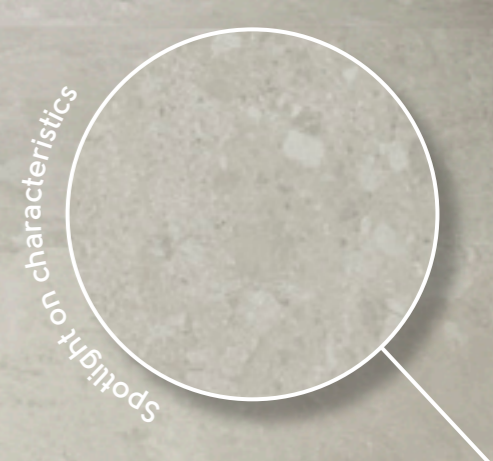

The large scale of this Italian Breccia-inspired design showcases natural variations against a grounded warm off-beige palette.

Pebble Grey RKT2410

Featuring seal grey tones and a mottled appearance, this limestone-inspired design is ideal for both industrial and modern interior styles.

Luna Breccia Marble RKT3020

The large scale of this Italian Breccia-inspired design showcases natural variations against a contemporary blend of cool light grey hues.
